

ESOTERIC UNITED NATIONS

Dearest Soul Friends,

Thank you for your interest and positive response to the work of establishing an **Esoteric United Nations** (*later EUN*)!

On our tiny planet we are living at a time of great change and, thus, at a time of most demanding challenges. No one can separate himself or herself from certain questions hovering before the human family; Where, really, are we now going? What is our direction? What is our destiny?

esotericunitednations@gmail.com * infinite8@gmail.com * tuija.s.robins@gmail.com

"We start with the premise that **two opposing world visions confront humanity** and that two world orders are presented to mankind. Between these man must choose, and his **choice will determine the future.**" [ExH 175]

This is, of course, somewhat clear to all disciples and spiritually searching aspirants, but it is also a fact that our vision is blurred regarding our next immediate step and how it should be taken. Toward that *illuminated vision* all of us need to approach, recognize it and share what we have learnt; we must

1. start to make sense of the coming future years (for us and for humanity) and
2. leave something "tangible" for those learning and struggling aspirants and disciples, who come after us.

There is so little time remaining before the ending of 2024.

"...the spreading of **world goodwill**, the discovery of the men and women of **goodwill throughout the world**, and the endeavour to **teach the meaning of the will-to-good**. This is the main task of the New Group of World Servers. We inculcated a **non-separative attitude and the need for right human relations**. We endeavoured to make clear that differing forms of government and varying ideological systems were right and possible, provided that human beings lived **together in goodwill and recognised their blood brotherhood.**" [ExH 177-178]

For that purpose, we are now calling our friends and co-workers to step forward with unified intention and to take the Flag of the One Brotherhood and Sisterhood, as members of the human family into our hands and send forth our demand for the formation of an **Esoteric United Nations**. Finally, we need to share the spiritual strength gathered from our experiences and from that which we have learnt during this period of preparation; we must devise some functional model and GIVE together.

The crucial time is upon us. We must know it. Every day, we come closer to the Great Conclave of 2025. It is a fact that by the end of the Era of the Forerunner we must leave to Hierarchy something real and of value. At least we will be able to state *without shame*, "**at least we tried**" to make positive changes. All positive changes require sacrifices.

In the Gemini Labour of Hercules (considering Hercules as the incarnated soul) He finally succeeds when he really learns to serve and think of others instead of himself. His final deed of five is to relieve Atlas (Hierarchy) of His Load. Such is our duty as well; one day it must be true for each and all of us.

"The Way to us is always marked by service. **Deeds of love** are signposts on the Way." Then Erytheia, who keeps the gate which all must pass before they stand alone before the great

Presiding One, gave him an apple and upon its side, inscribed in light, was writ the golden word of Service. "Remember this," she said, "forget it not." (Labours of Hercules/Gemini)

For some of us, training has reached a new portal, which is related to the degree to which we understand about the secret and mysterious life of the soul, which always will be seen in the group life as a new fresh impulse.

When these energies of the Festival Week of Group Impact were pouring through Capricorn (a great sign of group progress), the flow directly stimulated, in many vivifying ways, the next seven year cycle of group life; it will continue do that, and the result will be more seen when we reach Aries, IF one is doing properly one's work through the synthesising energies of Capricorn-Aquarius-Pisces. All of us now need to be fully alert and fully sensitive so that we are able to "read" and "listen" and "be obedient" to that which is descending. This must be recognized by the group. Now the times for strictly individual development are gone. The concept of the "Group" is the key to all true spiritual process, to the quality of every act we perform. And thus, we need to gather **now – finally – together** - before Him, before our Truthful Teacher, the Christ, who is the Teacher of Angels and of Men.

We need to **really**, seriously say, as a strong confirmation and for the next seven-year period, and according to His own teaching;
"We have Gathered in Your Name, Lord Maitreya (Loving Kindness), Be with Us."
That is what He promised; to be at present, wherever two or more would gather, in His Name. Let us believe in His promise and Gather in His Name.

We need two or more in every country, to sound this mantram and to be ready after 2025 for Him and His plans—His new teaching, His new instructions.

We need now to be **especially careful**, because these energies which relate us to the energies of Pluto and Saturn in Capricorn are potentially "dangerous" potencies when considering the unwise release of the rampant lower astral energies. If injudiciously released, the energies of this conjunction can rip apart the loving connections between the aspirants, disciples and the men and women of goodwill. IF WE ARE NOT CAREFUL, effects can be dire and destructive. Friction there will definitely be, and it must be so – the influence of Saturn is behind many uneasy and negative energies and is affecting humanity and the planet in many lower ways. Third ray Saturn is powerful when contacting the strong third ray in humanity and within the planet. Saturn, however, is also behind what we call "Law" and thus gives us the opportunity to transform our karmic patterns into patterns of much higher quality via the groups with which we are affiliated by releasing negativity in humanity with intelligent love.

esotericunitednations@gmail.com * infinite8@gmail.com * tuija.s.robbsins@gmail.com

Pluto will drag up everything (the many unredeemed patterns residing at the bottom of the aura)) into the day light; our challenge is to use Pluto with the energies of Aquila, the Spirit Bird, and open the Pathway towards the Sun. There are at this time just amazing opportunities for the group to turn its hands towards **real service** and give from itself the best it can, with the highest possible effort and in the strongest possible standing (for Hierarchy) on behalf of humanity. Pluto in Capricorn can also be considered the Devil Card in Tarot. This fact gives us a strong hint regarding what is going on. Let us *ponder on this*. ☺

What is the EUN

It is:

- dedicated to the Work on Earth of the Christ, the Lord Maitreya
- essentially, **a forum of love**, expressed through its unified group work
- expressing **union between the souls of nations** – not the invoking outer group
- **a movement in consciousness** not seeking large numbers but **quality**
- **a silent movement** supporting all NGWS groups and their many activities
- directly related to the New Group of World Servers' goals and aims (see below concerning such goals and aims NGWS below);
- expressing the quality of **"loving kindness" as is the Name of Maitreya**
- searching for establishing **right human relations** on Earth
- based upon **service** – not receiving but *giving*
- a demanding initiative because it demands the ability to "stand together by pledge/Oath"
- needing from its members deep dedication and ability to work alone
- seeking **inner union** between all the nations
- engaged in invocation every day, **the soul of a particular nation**. This is undertaken by the work of its members.
- aiming to offer to Christ and His Hierarchy some learned and discovered results from its group work for the Conclave 2025
- welcoming all members from all spiritual or cultural directions, if they accept the regulations of the EUN functions and are willing to take the Pledge/Oath
- demands the execution of the Pledge for a certain period of time and space until: 21-28 of December 2026
- intending that after its present seven-year cycle that lasts until 2026, the future and other possibilities and goals will be decided

Purpose

Our main and the most important purpose is to keep a living and vibrant invocation open for the emergence of the soul qualities and soul values of every country/nation. When seriously and skillfully brought forth, the energy of right human relationship, loving understanding and a compassionate attitude towards all members of the human race can be directed towards all people and bring millions of human beings into the Fifth Kingdom of Nature, the Kingdom of Souls.

This is done by invoking the soul qualities of a particular nation **every day of the week** by a member of the pledged members of the EUN. Every week there will be **one changing official Leader** representing the Sacred Silent Circle of Members, whose absolute duty is to be “present”. It is up to every member to determine how long a process he or she intends in order to perform the CALL.

The Pledge/Oath to be taken by each member of the EUN is valid **until the 28th of December of 2026**. To be discussed, after the next Festival Week in 2026, will be the kind of continuance we will pursue.

Rules for Action

A Sacred Name is a prophesy – it is said. The Name of Maitreya means “Loving Kindness”. So, Maitreya is, then, *more* than simply a Name; it is a Name for a Principle Quality of the New Teaching to be given in the Coming Era. This great Name indicates *how* humanity will evolve, and thus, for us, is important hint concerning *right action*.

That is the reason why we choose the method of “**loving kindness**”—

to provide our principal guidance regarding how we are to act towards each other, how we are to approach each other in the group and what we want to cultivate in the world and in humanity.

We need to realize even though this “esoteric invocation” is an invocation under the First Ray of Power (and, thus, our invocation is really a **spiritual demand**), we, nevertheless, gather into the imaginative Silent Sacred Circle of Invocation under the great Second Ray of Love-Wisdom in order to assist with the building of Humanity’s Antahkarana which links the head and the heart center of Planetary Logos.

Within the body of the planetary Logos humanity is slowly building that which they call the antahkarana; this is, in reality, the linking thread between the head centre of Sanat Kumara and His heart centre. Ponder on these words. (RI 284)

We spread through the group aura vibrations of very LOVING co-operation based upon *loving kindness*, as He, Maitreya, did.

Upon Purpose

*It is **only the subjective links and the subjective work** that determine success, and these must (particularly in the New Group Work) be based on egoic relations and not on personal attachments and predilections.*

The purpose of Deity is necessarily embodied in a mental proposition; it is **through this mental proposition that the three Buddhas of Activity implement Their work**. I can put it no clearer. There will come a time in the experience of all initiates when—each for himself—a formulation of this mental proposition will be absolutely necessary. **By means of this, each initiate will embody his individual understanding of the divine purpose as the Plan has been revealed to him.**

Shorter-Term Goals

The EUN will meet at least **four times a year** with larger meetings in webinars. All the members will try to gather with the understanding that Hierarchy works via events.

It is important to keep a spiritual diary and learn to recognize the inner changes within the etheric level in order to learn to be used effectively in possible emergencies and to grow in one's consciousness towards an awareness of the real meaning of global citizenship.

Along the way, there will come many smaller initiatives by the group of the EUN accompanied by many other groups of the global network of Groups of Light. This initiative concentrates at first on deep inward work for the purpose of **invoking a soul alliance (even though soul is always in alliance – in union) to be manifested on Earth!**

Volunteered esoteric studies of the Nations and of discipleship will be offered for the supplementation of the Group Light.

Different working forums will be developed, but the first main goal is the DAILY SILENT WORK OF CONTINUOUS DAILY INVOCATION without any breaks.

Responsibility

When the Era of the Forerunner closes in about five years, it is very important to be clear of one's spiritual duty—clear about one's esotericunitednations@gmail.com * infinite8@gmail.com * tuija.s.robbins@gmail.com

particular placement in the scheme of an anticipated vast inflow of aspirants and disciples coming at that time to arrange and prepare for the even greater events of the full Externalization of the Hierarchy followed by the Reappearance of the Coming One.

In the coming Externalization, *everyone is **one***, but has this fact really been consciously understood in the brain consciousness? We all need to answer. It should be very clear, at least very soon, exactly what one is supposed to be doing.

Pledge/Oath

Taking a Pledge or Oath comes quite naturally at some point when one is travelling the Path of Redemption. Surrounding the subject of Oath-taking there are so many glammers and illusions rising from the lower kama-manasic mind. The act of pledging or oath-giving is something which all true disciples should ponder in order to become clearer in their mind. They must really understand why such promises are needed.

Putting the idea in very straight terms: more rapid advancement starts when we are ready to take a Pledge. The Pledge is a commitment and only possible for the soul-n-incarnation. The personality can never commit itself, because, commitment means sacrifice and the personality (without the aid of the soul) is too selfish for sacrifice.

An Oath is taken during every initiation. Our Pledge/Oath is taken for the protection of this important work we are starting together. This is work we are undertaking together and is like the work of mythological Atlas, carrying the world upon His shoulders. We are pledging to work in this way until the end of 2026.

Our Pledge/Oath is in two parts. We take the Oath, by imaginatively coming before the Christ, standing together before Him (as if we were our Higher Self) in the Sacred Silent Circle, witnessing every member one by one saying the outer Pledge, in which we all commit ourselves to a short daily attunement for the next seven years until the 28th of December 2026. The second part of the Pledge/Oath is taken in silence in ones' inner space, solemnly and in private. Such an Oath is always taken before the Higher Spiritual Powers and never at the strictly personal level.

Let us not take our Oath lightly; we are definitely intended to mean that which we pledge!

Some of you are asking about what would happen if one passes away during the seven-year Pledge Period? We always must remember that we are not only a group existing on the outer plane; the group is always a bigger entity and exists within the inner worlds as well. The work just continues. If any group appears on the physical plane, it already has had an inner existence before that.

EP II 177-178

The Law of Group Progress can only begin to have a conscious effect in the life of the disciple who has been pledged and accepted.

1. The disciple will then learn effectively to decentralise himself. This means that

a. He will ask nothing for the separated self. One can therefore easily see why aspirants are taught **to pledge allegiance to their Higher Self, and to forswear all claims of this separated self.** One can see also why so many react against it. They are not ready for it, and such a pledge therefore acts as a great discriminating agent. To those for whom the standard of selflessness is set too high, it is neither understood nor desired. Therefore, the unready criticise it. Later these will come back and with understanding take this obligation in the light.

PLEDGE/ OATH Part One

"We have Gathered in Your Name, Lord Maitreya, Be with Us"

I(Your Name),

humbly stand with my Sisters and Brothers in The One Work.

I realise the need and my responsibility to Humanity.

I, thus, give my Oath before the Christ, the Master,

my Solar Angel and my pledged Friends,

to stand together until the 28 of December 2026 and

invoke every day the souls of those countries,

we have chosen to invoke."

OATH Part Two

Done in Silence of 12 minutes. Done between your soul and The Master.

Groups of Nine

As already mentioned, we are planning to form members into groups of nine if possible, maybe some group members will have to wait before placed in formation.

The groups of nine are mysterious groups which can be **occultly absorbed into the heart center** (i.e., Hierarchy) of the Planetary Logos! This is surely something that we need to discuss frequently and contemplate often so that we can achieve some clear and practical knowledge of the process. We must gather true understanding, in practical terms, of what is meant to occur and how to recognize its occurrence.

"It will be apparent, therefore, that certain developments must have taken place in the individual before he can consciously become a **functioning member of the New Group of World Servers, which is the principal group at this time definitely working under the Law of Group Progress.**

1. **He must have the heart centre** awakened and be so outgoing in his "behaviour" that the heart is rapidly **linked up with the heart centres of at least eight other people.** **Groups of nine awakened aspirants can then be occultly absorbed in the heart centre of the planetary Logos.** Through it, His life can flow, and the group members can contribute their quota of energy to the life influences circulating throughout His body. The above piece of information is only of interest to those who are spiritually awakened and will mean little or nothing to those who are asleep." **EP II 197**

The Science of Invocation

It is said that humanity is now the first time truly invocative, that this is the first time in its long history that it has gained enough understanding and power to be heard on high. A new and coming Science of Invocation is developing through the Triangles Work. That is also something to be pondered deeply in terms of its connotations and practical results. Ponder on the relationship of the Groups of Nine with the developing Science of Invocation.

This new Science of Invocation is worthy of deep study. A deep understanding of invocation will reveal to us the method for undertaking future work. There will come times when we need to push as hard as we can in order to help humanity. Thus, it is only wisdom to rehearse for those impending times of emergency. Invocation is not only the ability to say

prayers and mantrams; one must learn the steps to take and how to *discriminate*.

One of the most powerful of the mantrams is the Great Invocation and should be sounded every day as does the Christ under His pine tree – His Naga-tree in the Himalayas. In Invocation, the greater powers are called into activity as we attempt through our EUN project to invoke into activity the Forces of the Soul in every country.

3. The invocation and the response of certain great Beings, Whose work can and will be possible if the first of the objectives is achieved through the accomplishment of the second objective. Ponder on this synthesis of the three objectives. By what name these Living Forces are called is entirely immaterial. They can be regarded as the vice-regents of God, Who can and will cooperate with the Spirit of Life and of Love upon our planet, the One in Whom we live and move and have our being. They may be regarded by certain thinkers as the Archangels of the Most High, Whose work has been made possible through the activity of Christ and His body of disciples, the true and living Church. They may be regarded by others as the guiding heads of the planetary Hierarchy, Who stand behind our planetary evolution, and Who seldom take an active outer part in the world activity, leaving it to the Masters of the Wisdom except in the time of an emergency such as this. By whatever name we call Them, They stand ready to aid, if the call comes forth with sufficient strength and power from the aspirants and disciples ... [Esoteric Psychology II, 689]

Discrimination/Vibration

We are taught to learn how to ***discriminate*** between different vibrations. We need to become sensitive to the different vibrations of the countries and the qualities of their soul ray. It is good practice for us is to start to study the pairs of opposite in these countries on subtle and material levels. It is our ***responsibility to invoke (and, hopefully, evoke) the soul and the soul-ray of the country/nation***. One important note to ponder is that a country is not necessarily the same as a nation! But we will work for practical reasons according to present list of countries.

The disciple in training for these higher realisations is urged to practice the faculty of discrimination. You have been so urged. The initial and normal interpretation and the immediate effect of the practice is to teach the disciple *to distinguish between the pairs of opposites*. Yet just as the disciple in his early training discovers that the discriminating process has naught to do with the choice between recognised evil (so-called) and recognised good, but *concerns the more subtle pairs of opposites* such as right and wrong silences,

right and wrong speech, right understanding and right indifference and their opposites, so the man who is reacting to these higher laws discovers that **the discrimination to be shown is again still more subtle** and is—for the bulk of the aspirants in the world today—still a meaningless objective. This type of discrimination is not even being evoked. [EPII 177-176]

About the Group

Whenever we establish a group, it never becomes a group without a mission. We have a mission; to bring forward the soul-alliance of all the countries which exist at this present time.

Every group must be defined and understood according to its group methods of work. We realize that we seriously believe the Christ can be present in the midst of such groups and thus we work under the influence of His vibrations which express a VERY LOVING co-operation based upon loving kindness. We work according to the expressed vibrations of His Nature.

Think outwardly towards each other in love. Just simply that, my brothers—simply and humbly that and no more than that at present.

Can you accept such a simple rule—apparently simple? In this way the etheric body of this group of disciples will be animated by the golden energy and the light of love and thus a network of light will be established which will form a focal point of energy in the etheric body of humanity itself and eventually in the planetary etheric body also. [DINA I 80]

"I pledge myself to the Path of Love.
I demand of my soul that I, the Spirit in form,
shall act as a channel for compassion and
an instrument for love until I know myself to be Love itself.

I am that Love.

With pure intent I serve.

This love and zeal in me must feed the aspiration of my fellowmen.

To this—in knowledge full—I pledge myself."

About the New Group of World Servers

"The New Group of World Servers, composed at this time of all those sensitive and consecrated servers of the race whose **objective is world peace**, who aim at **the establishing of good will on earth** as the basis for future living and world expansion. Originally, this group was composed of a handful of accepted disciples and consecrated aspirants....to all those men of good will who are working actively **for real understanding**, who are willing **to sacrifice themselves for the helping of humanity**, and who **see no separating bar of any kind, but feel alike to the men of all races, nationalities and religions.**" [Esoteric Psychology II, 690]

About the Present Time

"3. Because of the evolutionary preparedness, evident in the consciousness of humanity, **the penetration of energies which have already reached a point of polarisation upon the mental plane** is now being continued, and the result is a **definite precipitation of all these energies upon the physical plane**, in dense physical substance; the precipitation is also evident in the ordinary consciousness of ordinary mankind. This statement, you will have to accept on faith. The evidence for the truth of the statement will be found in increased human **receptivity to the will-to-good** which the activity of all the seven rays (custodians of the divine purpose) promotes.

We are therefore, my brothers, living in a time of spiritual crisis. **When a human crisis and a spiritual crisis coincide, there comes one of the major periods of opportunity and decision in general human affairs**; hence the extreme gravity of the present moment. [DINA II 428-429]

All I can do is to call it to your attention; **it is for you to watch and interpret current events, and it is for you to note the expression of the precipitating and penetrating energies**, in order to cooperate as far as your insight [Page 429] permits, and thus further the right production of the required effects."

You will soon be given a copy of your short Daily Meditation.

Many Blessing with deep Gratitude,
Tuija and Michael Robbins
