Morya Federation  
Esoteric Healing Faculty  
July 2021

# Overview

Introduction to Esoteric Healing as taught  
by the Tibetan in his book “Esoteric  
Healing”

Welcoming of new members of  
the group

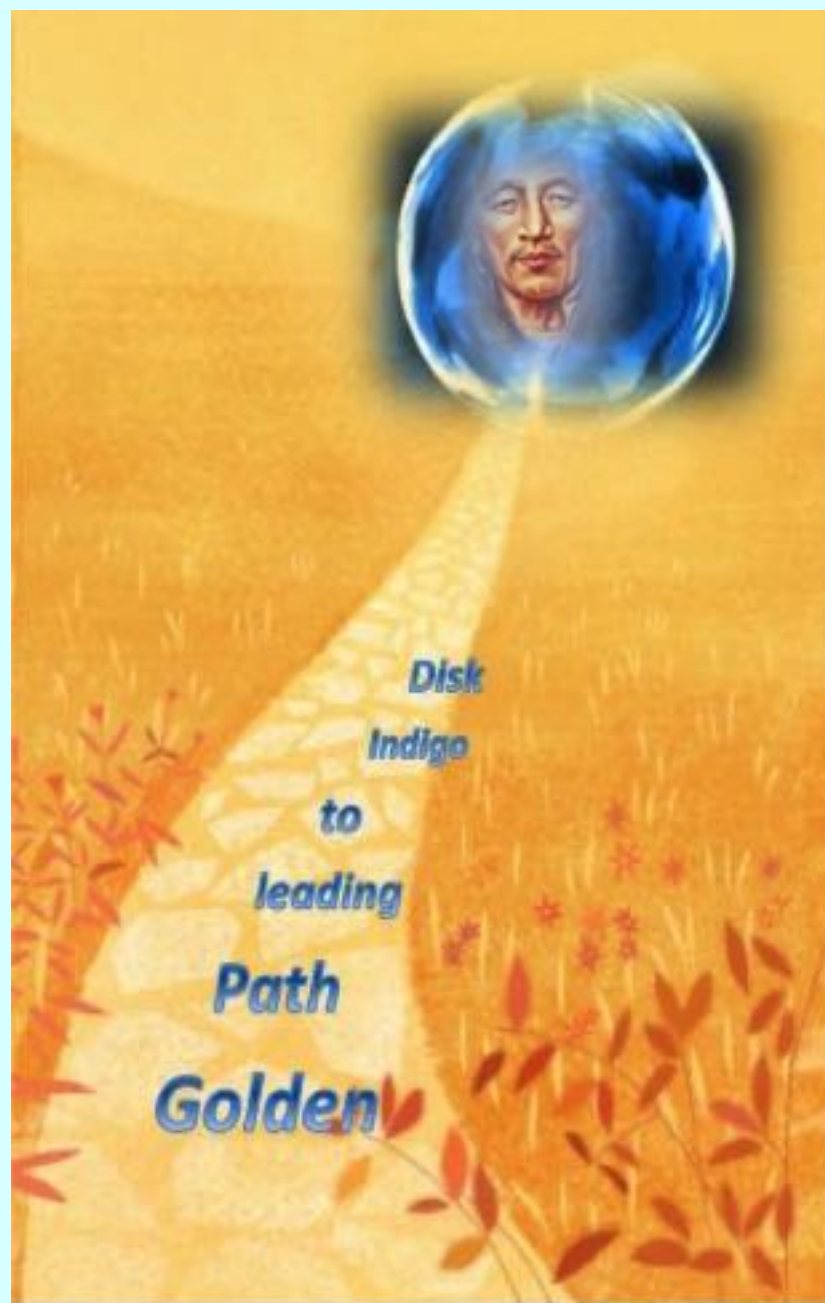

Quick alignment as a group

# Short visualisation

Let's link up as a group

- Raise your consciousness as high as you possibly can
- Endeavour then to hold steady, holding the mind unwaveringly "in the light,"
- Realise that, on D.K.'s side, he also stands steady, pouring out upon us his love and strength and endeavouring to lift us up into a higher state of consciousness.
- Visualise ahead of us a disk or sphere of indigo blue, a deep electric blue.
- Imagine D.K. standing in the centre of that disk, waiting.
- See a band of golden light between us and the disk gradually shortening, thus bringing us closer together, slowly and steadily, until we enter into the heart of the blue disk.
- Sound a blue OM

# The Morya Federation

- An international, internet-based esoteric school, only supported by donations
- Run by a team of volunteers, all well versed in the Ageless Wisdom teachings
- Offers a comprehensive program of meditation, study and service to suit students at various levels of expertise and time availability
- Almost entirely based on the teachings of the Ageless Wisdom
- Its goal is to help create soul-illuminated servers of humanity—servers inspired by love, spiritual will and spiritual intelligence.

# The Founder of Morya Federation

- Initiated by Michael Robbins in 2008
- President of the Seven Ray Institute and University of the Seven Rays since 1987
- A long-standing & brilliant teacher of the Ageless Wisdom through the study of Esoteric Psychology, Esoteric Astrology, the Science of the Seven Rays and Esoteric Cosmology
- Author of several books: *'Tapestry of the Gods'*, (an in-depth treatise on the Seven Rays), *'Infinitization of Selfhood'*, *'On the Monad'* as well as being the creator of the *TARA Profile* and the *PIP* designed to help people determine their ray chart and its relation to their astrological chart.
- Facilitator of many webinars (see list on website: [makara.us](http://makara.us))

*Ph.D. in Psychology, Ph.D.E. in  
Esoteric Philosophy*

# The Ageless Wisdom

Our principal source of spiritual teachings is the comprehensive writings dictated by the Tibetan Master, Djwhal Khul (D.K.) to his *amanuensis*, Alice Bailey, via mental telepathy, between 1919 and 1949.

Together they wrote 24 books covering many aspects of the Science of the Seven Rays, Esoteric Astrology, Healing, Psychology and the Ageless Wisdom cosmology.

A profound, multi-levelled, timeless synthesis of Eastern and Western traditions.

***The Tibetan Master, Djwhal Khul (D.K.)***  
*(From a painting by Annie Gowland, 1931.)*

# Who is Master D.K?

- ✧ *The Ageless Wisdom teachings given by the Tibetan master: Djwhal Khul (D.K)*
- ✧ *He has been called “The Messenger of the Masters”*
- ✧ *He is the healing master in Hierarchy.*
- ✧ *He works with those who heal altruistically*
- ✧ *He plans to restore through his students the old and occult methods of healing.*
- ✧ *The protocol we use and follow very closely is from his book “Esoteric healing”. P103-105*
- ✧ *The Radiatory Technique we’ll be using is D.K.’s adaptation of the second ray method of Love and Wisdom arranged for beginners.*

# True healing still in infancy

In spite of the multitude of approaches, techniques and methods of alleviating suffering during thousands of years and the advances of modern medicine, true healing is still in its infancy.

It's only in this age and generation that Hierarchy has deemed safe and opportune to impart the laws and rules of esoteric healing and to indicate the causes of those diseases—originating in the three inner bodies—which today devastate the human frame, cause endless suffering and pain.

# Why now?

*Because only today is Man at the point in the evolution of his consciousness where he can begin to realise the power of the subjective worlds and is ready for this type of Knowledge...*

*We have much to do, and I ask therefore for patience on your part. EHp1*

# Laying the foundations of Esoteric Healing

*We shall find that the work which is engaging our attention will fall into three categories: these will work out sequentially and not simultaneously.*

1. The *training* in the principles of the healing art, as we

- a. *Lay the foundation for later expansion in the New Age.*
- b. Seek to preserve that which is good and useful in the shift of the emphasis from the outer external man to the more subtle etheric and vital body.
- c. *Study this Treatise on the new healing* which will meet with a measure of response, but *which will only later enter into its true usefulness and mission. EHp372*

# No immediate practical value of Esoteric Healing but theory must be studied

*What I have, therefore, to say upon the  
future healing of disease will not be of  
practical value for a long time to come,*

*but the theory and the indications of  
possibility must be considered and  
discussed. EHp537*

# Pioneering nature of D.K.'s teachings

*A much higher measure of spiritual perception and of mental understanding is required before the system I propose becomes effective.*

*All that I give in my writings is largely of a pioneer nature and this should be remembered. EHp538*

## D.K. deals with subjective causes rooted in the subtle bodies

*I shall not, therefore, deal with the anatomy of the body, nor shall I discuss the symptoms of diseases, except quite incidentally.*

*I do not intend to elaborate symptoms or consider the many diseases with long names which distinguish the race at this time;....*

*I deal with the subjective aspect of man, and with the secondary causes which have their roots in man's inner bodies and in the subjective side of nature itself. EHp27*

# D.K.'s book on Esoteric Healing NOT a treatise on rules and laws to cure specific disease

*You will note also that I am not giving rules and laws which deal with specific diseases. This, I fear, will greatly disappoint many earnest workers.*

*They would like me to indicate what should be done, for instance, to cure cancer of the liver, or pneumonia or gastric ulcer or forms of heart disease.*

*This I do not intend to do.*

*My work is far more basic than that.*

*I am concerned with causes, and primarily with the etheric body as the distributor of energies or as the withholder of these energies when transformed into forces;*

*I deal*

- *with the state of consciousness of the healer and*
- *with the theories which he should embrace,*
- *with his understanding of the relationship of the soul to its vehicles of expression (particularly, in the case of healing, to the vital body), and*
- *with the controlling fact of the centres found in every area of the body,*
  - *either freely distributing energy and preserving the body in good health or*
  - *—through undevelopment and inhibited activity—bringing about those conditions in which disease becomes possible and probable. EHp547*

## D.K.'s texts left intact in this course

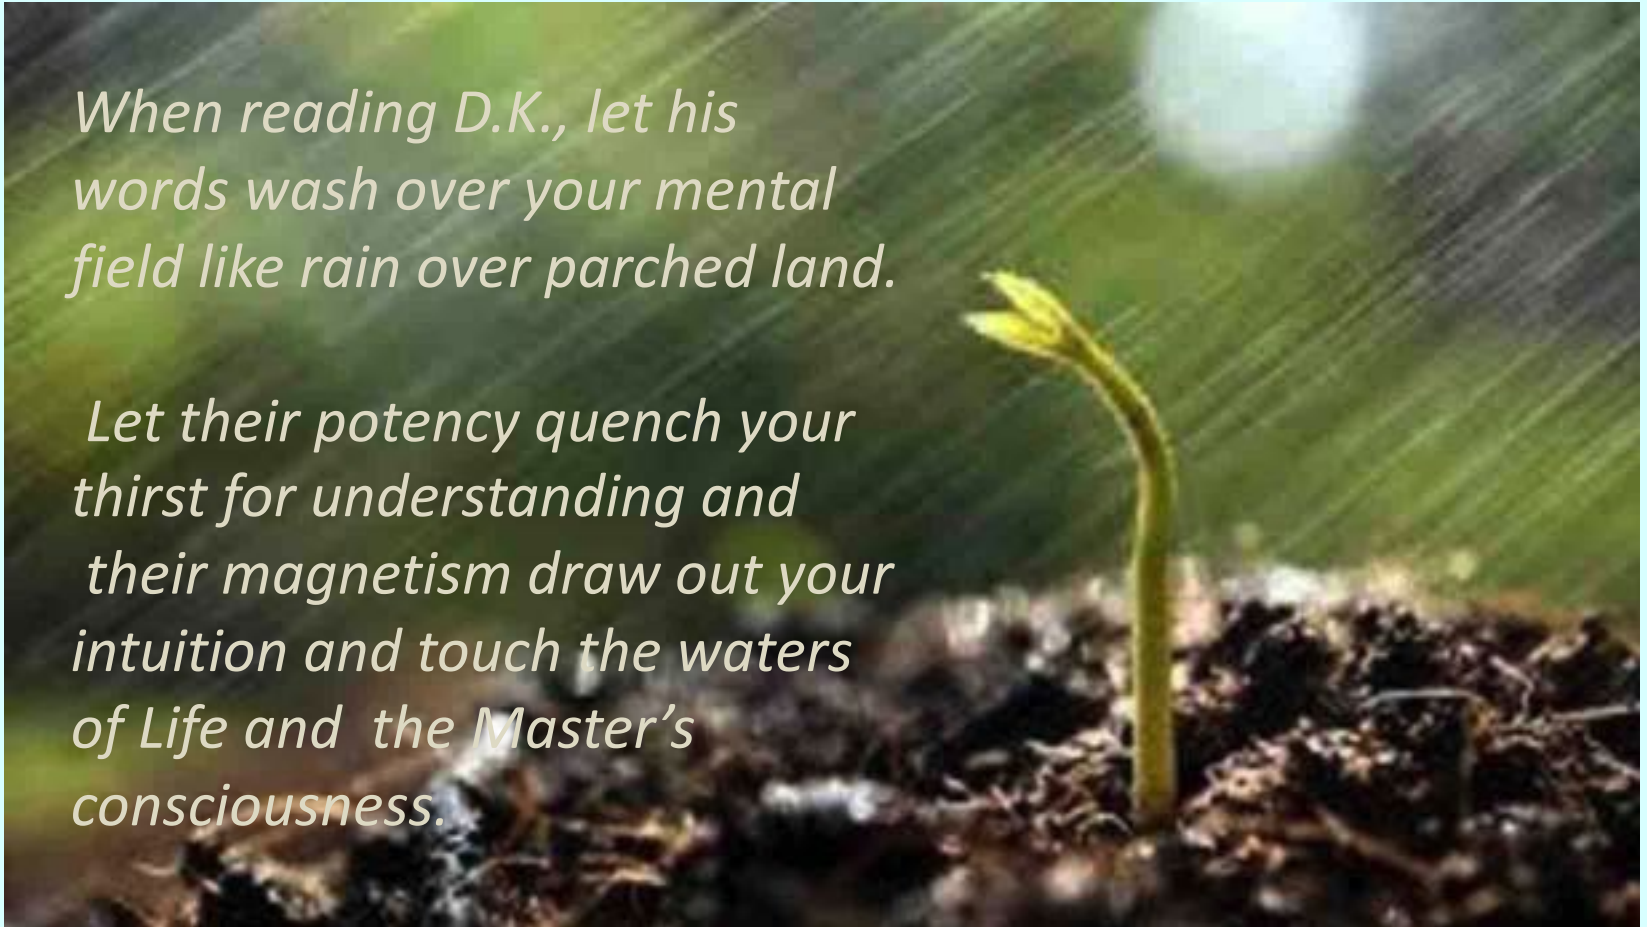

*I would call your attention to the fact that statements emanating from any member of the Hierarchy, such as myself, have in them a **potency** which may not be arrested....*

*The tendency to adapt such writings to what you and others conceive to be the capacity of the public mind detracts from the **magnetism inherent** in—if I may so express it—the unadulterated article. DINA II p581*

# D.K.'s words like “rain on parched land”

*When reading D.K., let his words wash over your mental field like rain over parched land.*

*Let their potency quench your thirst for understanding and their magnetism draw out your intuition and touch the waters of Life and the Master's consciousness.*

# Advice before embarking into the study of EH

*Aspirants lose much by refusing to let go of that which the lower mind cherishes.*

*When they do succeed in **being entirely open minded and are ready to accept the new theories and hypotheses,***

*they discover that the old and dearly held truth is not really lost, but only relegated to its rightful place in a larger scheme. EHp1*

# What is Esoteric Healing etymologically?

- ✧ *DK aptly coined the type of healing he presented “Esoteric”*
- ✧ *The word Esoteric originates from the Greek ‘esoterikos’ of ‘eso’ meaning “within”*
- ✧ *“Heal” stems from the Germanic “Hailaz” meaning “whole”.*
- ✧ *From an etymological point of view, the expression points to the idea of being whole within or healing within.*

# What is Esoteric healing according to the Ageless Wisdom?

Esoteric healing is the art of releasing the soul so that its life may flow through unimpeded as the soul is the true healer.

- *When the life of the soul can flow without any impediment and hindrance throughout every aspect of the form nature.*
- *It can then vitalise it with its potency,*
- *It can also eliminate those congestions and obstructions which are a fruitful source of disease.EHp17*

# Types of Healing: modern Medicine

## *Modern medicine:*

*The diseases, their symptoms and treatment of the physical body, are well known and understood, as medicine has advanced by leaps and bounds.*

*Humanity cannot do without its doctors,  
its surgeons and its hospitals. They are  
urgently needed and will be for centuries  
to come EHp481*

# Other types of healing.

## Chiropractic

## Herbalism

## Nutritional Therapy

6/7/21

## Massage therapy

# More sophisticated forms of Healing

Reiki

Acupuncture

Emotional Freedom  
Technique or EFT

Reflexology

# Other types of healing:

## Healing with prana

*The average unintelligent healer is usually simply a transmitter of prana itself, which is the energy of the planet.*

*This combines with the etheric physical energies of the patient, passing through the healer's body.*

*These stimulate the patient sufficiently so that he is enabled to throw off the enfeebling disease.*  
EHp328...

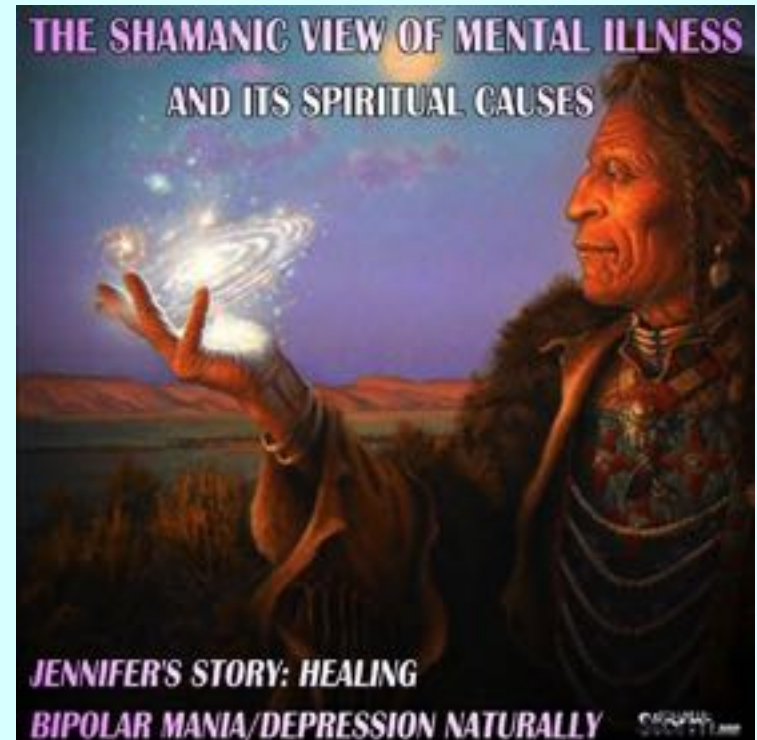

Physical healing by prana is very common. It is often temporarily effective, but it concerns and deals only with effects and never touches causes. The disease can therefore be abated, but never cured. EHp329

# Other types of healing:

## *Astral healing*

*Astral healing is rare,  
very seldom  
successful ...due to  
the polarisation of  
humanity at this  
time and to the lack  
of correct emotional  
poise and control.*  
EHp329

## Mental healing

*The power to heal mentally is on the increase and produces relatively permanent effects.*

*Mental healers (true mental healers who are rare indeed) blend soul energy with the two above mentioned forces [pranic and astral] and this produces a synthesis of the personality forces..... EHp329*

Music Therapy

Hypnotherapy

6/7/21

Cognitive Therapy

# Soul Healing or esoteric healing

*Soul healing supersedes the  
three above methods [pranic, astral  
and mental]  
and  
produces the pouring of pure  
soul energy into and through  
the bodies of the patient. EHp329*

# Highest form of Healing

*The highest form  
of healing at this  
time possible is  
psychological.*

*DINA-I p344*

DK refers to 'psychology' as the study of the psyche or the soul and psychological in the sense of the psyche or the soul.

# Etymology of 'psychological'

*The word 'psychological' comes from Modern Latin 'psychologia', from the Greek **psykhē** "breath, spirit, soul" + **logia** "study of".*

*So Psychology is the study of the soul.*

DK refers to 'psychological' in the sense of the 'psyche' or the soul.

*Psychology is the 'logos' or word of the psyche or soul. The Soul & Its Mechanism p23*

# Different types of healers

*Healing need not necessarily be physical in its objective. DINA I p344*

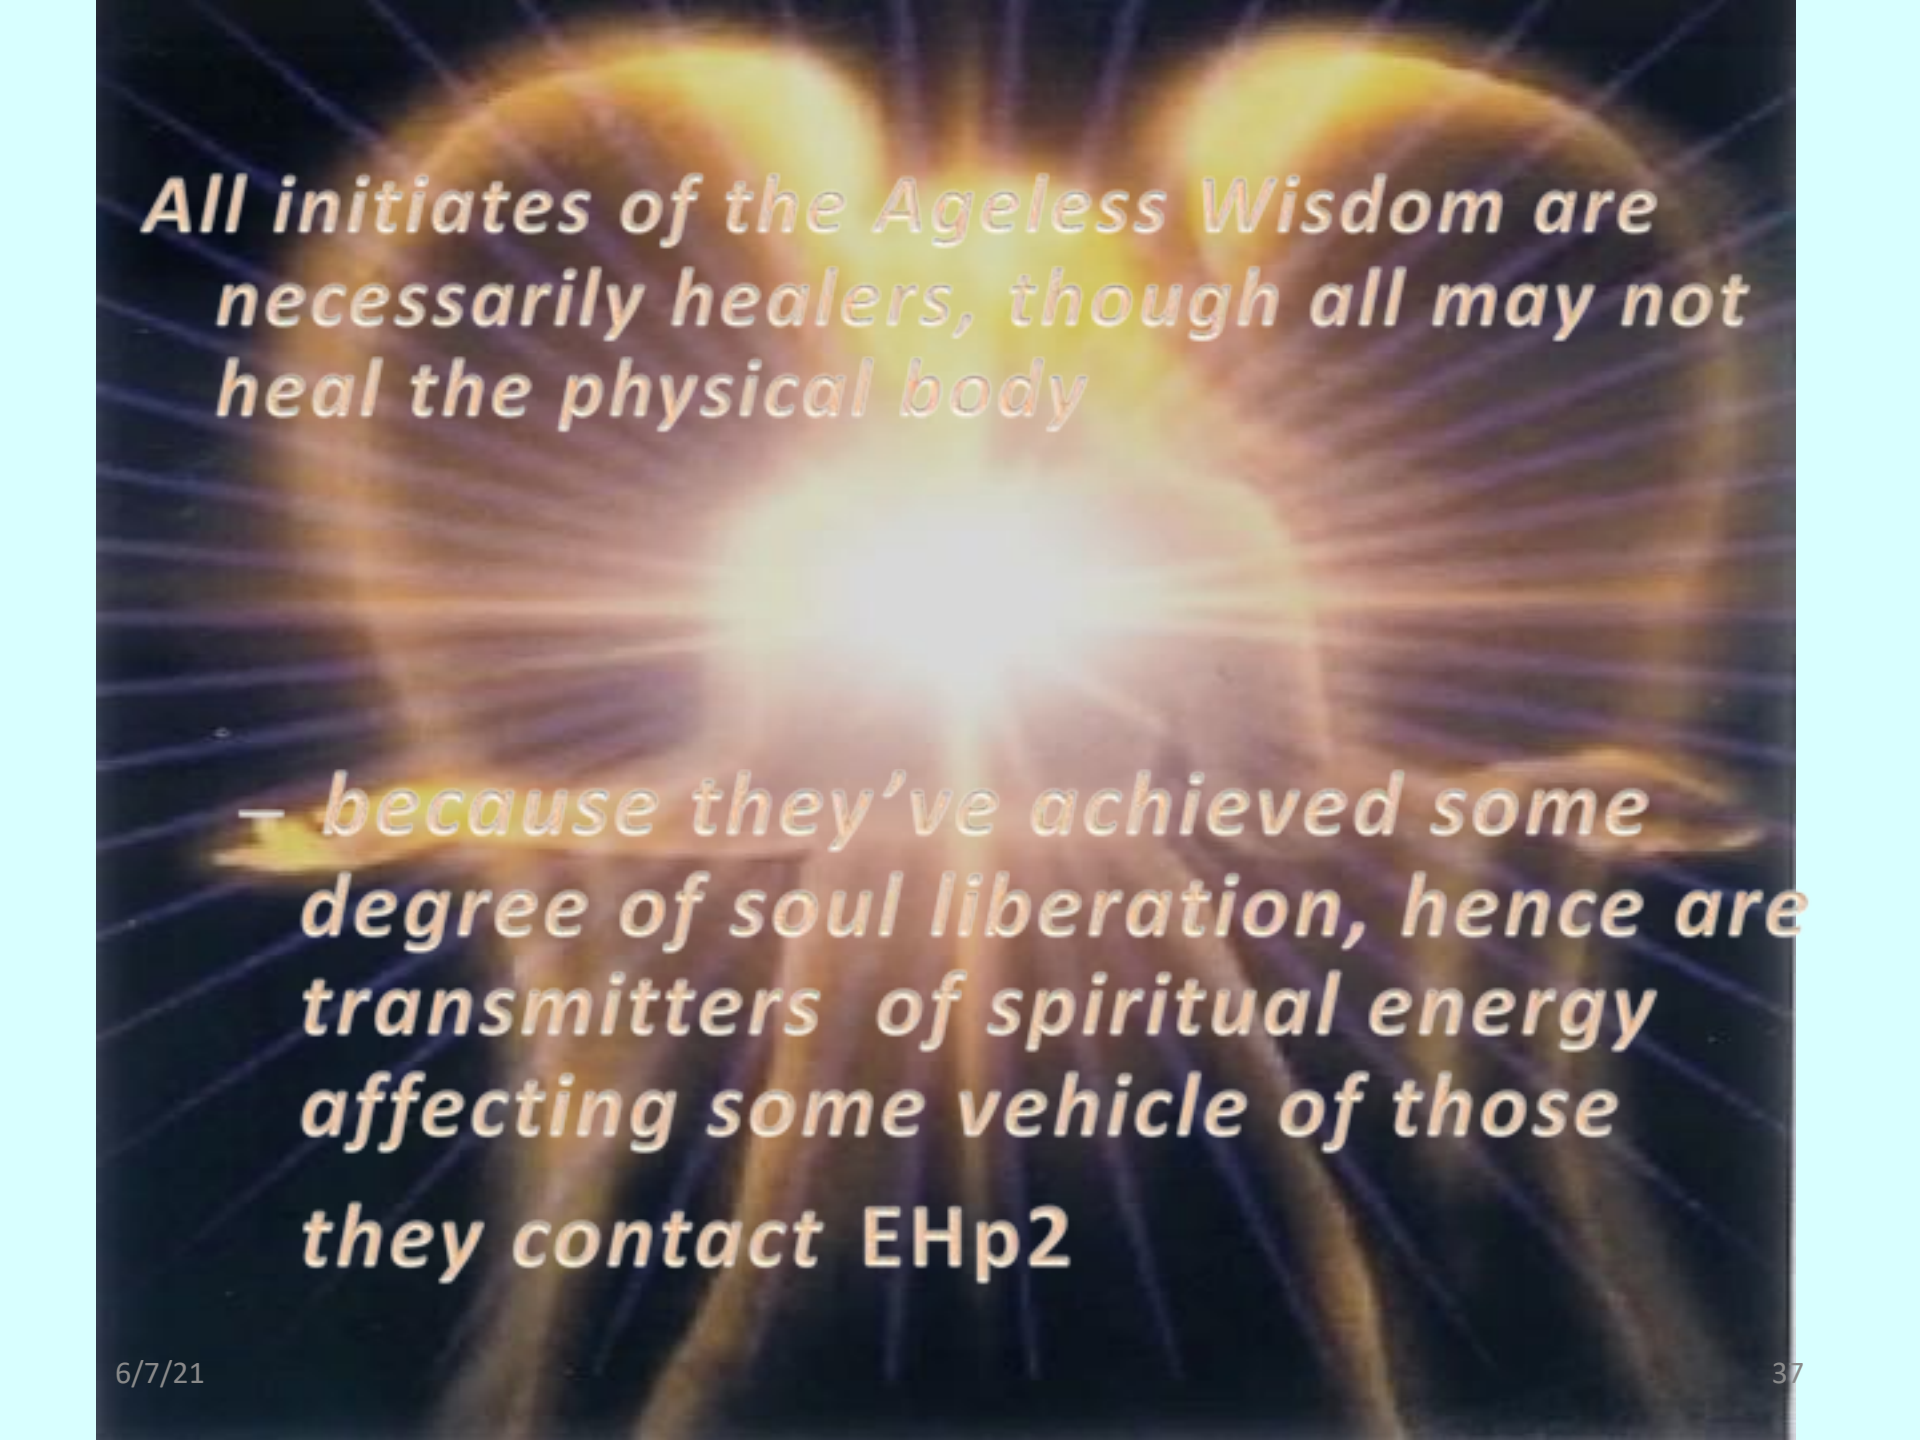

*Some people heal those afflicted with physical ills.*

*Some work in the field of psychology and deal with those troubles which have a more mental basis.*

*Others .....can aid in stabilising the emotional or astral bodies of those distraught.*

*DINA I p189*

A glowing human figure, possibly a chakra diagram or a spiritual representation, is centered in the background. It emits numerous bright, radiating lines of light, primarily in shades of yellow and orange, against a dark blue background. The figure's head, torso, and limbs are visible, with the most intense light emanating from the chest and head areas.

*All initiates of the Ageless Wisdom are necessarily healers, though all may not heal the physical body*

*– because they've achieved some degree of soul liberation, hence are transmitters of spiritual energy affecting some vehicle of those they contact EHp2*

# Esoteric healing or soul healing as an objective

*Soul healing .....produces the pouring into  
and through the mechanism of the  
patient of pure soul energy.*

*It was in this way that Christ worked, and  
there are few today to work this way.*

*It must be held before you, however, as an  
objective. EHp329*

# What is Disease according the Ageless Wisdom?

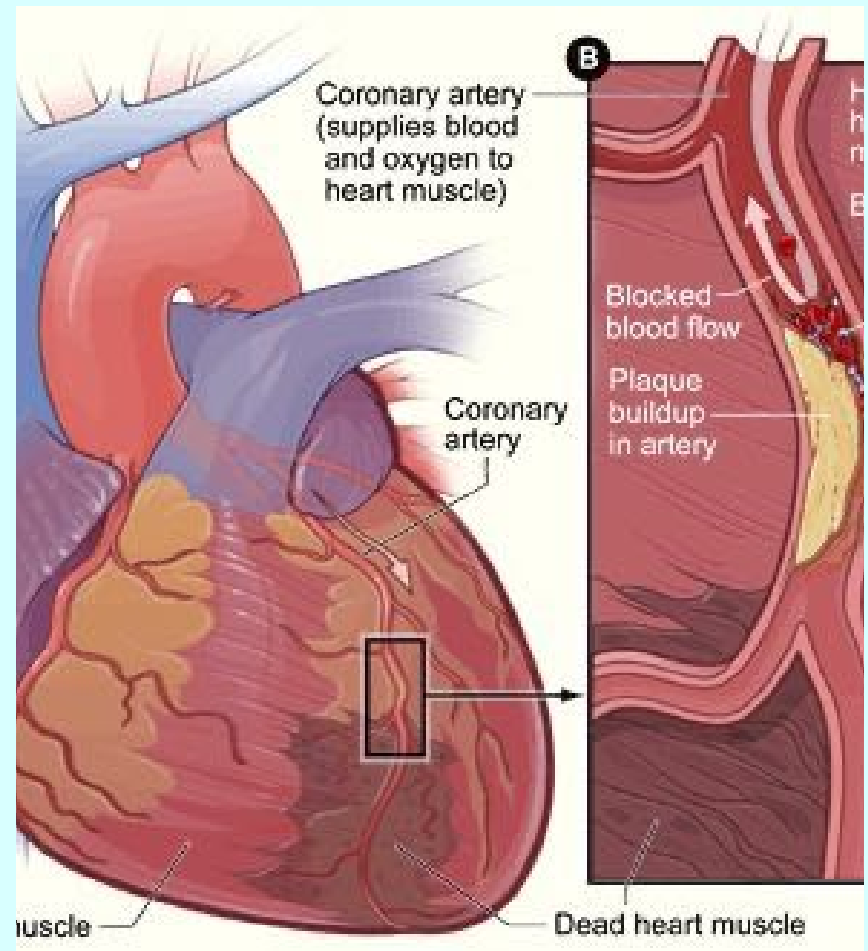

*Disease is the result of a  
blockage in the flow of  
soul energy to a vehicle  
or body. EHp3*

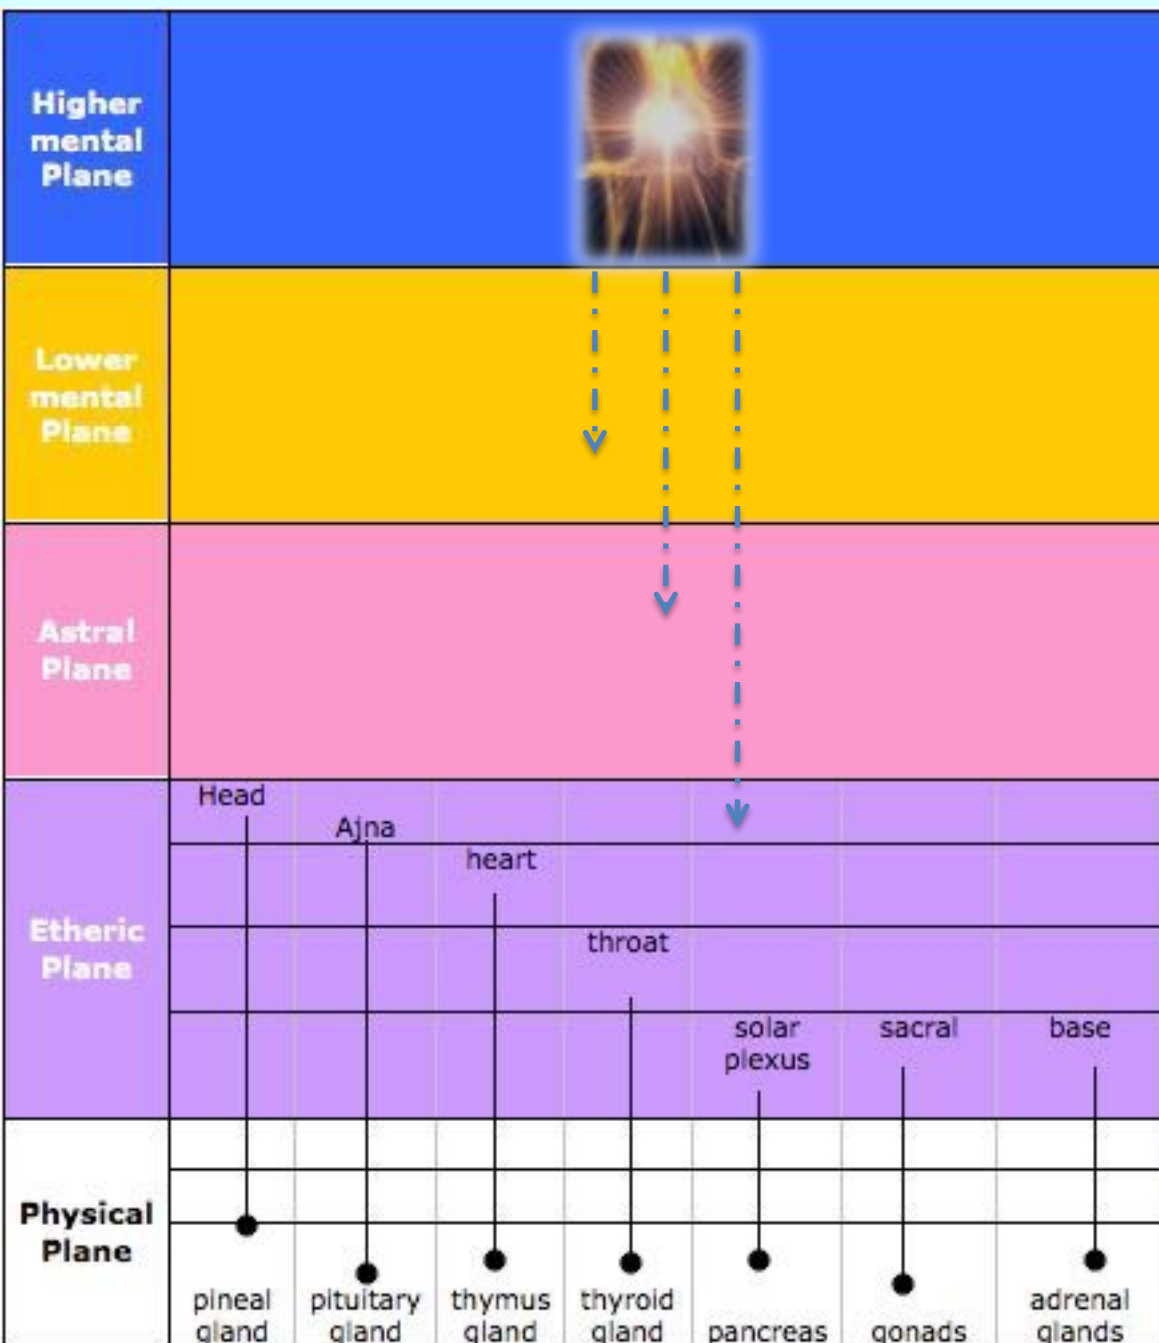

# Analogy: heart attack

When the flow of blood is arrested or blocked, the result is pain, congestion, disease or death.

So too, when the life force of the soul is blocked or congested, disease occurs, leading to death in some cases.

*In these two bodies, the etheric and the astral bodies, 90% of the causes of physical diseases and troubles is to be found. EH

3*

# Key idea of Esoteric healing

*Esoteric healing is  
“concerned with diseases  
arising in wrong internal  
conditions” EHp19*

# What does Esoteric Healing deal with ?

Esoteric Healing IS concerned with

Wrong internal conditions which block the energies of the soul

Restoring the disharmony or lack of alignment that exists within his vehicles

Making the person whole again i.e., releasing the soul so that its energy can flow freely through his vehicles without impediment

# Esoteric Healing is NOT concerned with

Accidents due to personal negligence, carelessness, results of fighting, attacks from the animal world, accidental poisonings etc.

Esoteric Healing  
NOT concerned with  
Infectious/  
contagious  
diseases,  
epidemics  
coming from  
the  
environment

*Infections coming to a man from outside and not as the result of his own peculiar blood condition.*

*Such infections are the various so-called infectious and contagious diseases, and prevalent epidemics.*

*These may come to a man in the line of duty, through his daily contacts, or through a widespread condition of disease in his environment. EHp18*

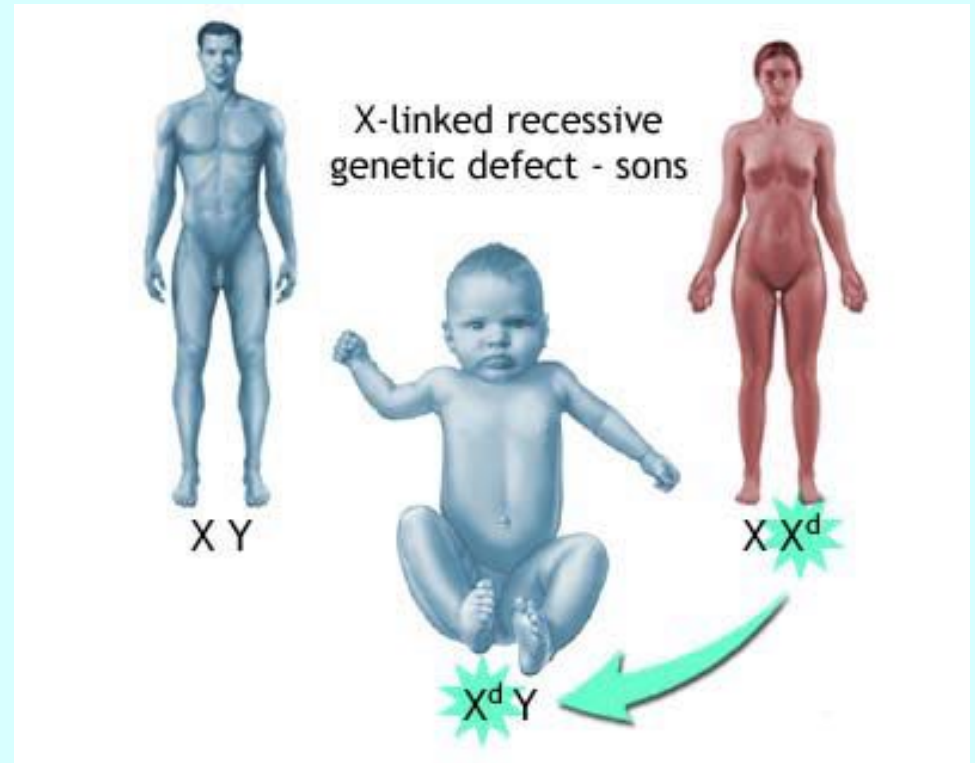

# Esoteric Healing is NOT concerned with

Diseases due to malnutrition, predisposing the physical body to disease & lowering its resistance & vitality

Esoteric Healing is NOT concerned with

Some forms  
of  
hereditary  
weaknesses  
EHp18

## 4 types not classed as psychological diseases

*These four types of disease and causes of death account for much that we see happening around us in people's lives,*

*but they are not to be classed definitely under any of the psychological causes of disease EHp19*

# THE CHRIST AND HEALING

# Esoteric healing or soul healing as an objective

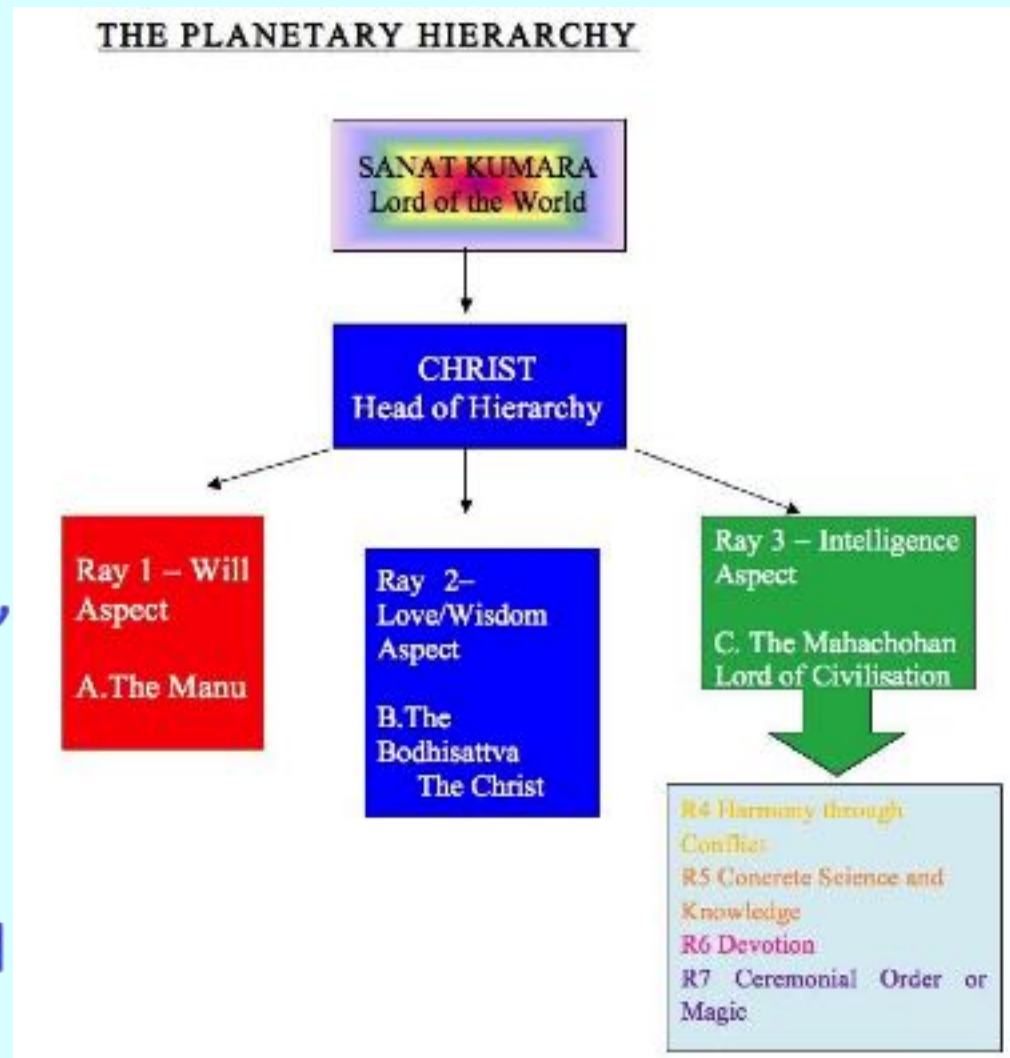

*Soul healing .....produces the pouring into  
and through the mechanism of the  
patient of pure soul energy.*

*It was in this way that Christ worked, and  
there are few today to work this way.*

*It must be held before you, however, as an  
objective. EHp329*

# Christ and Hierarchy

The Christ is The Head of the whole Hierarchy, the spiritual leaders of humanity and has held the office of the World Teacher and as head of Hierarchy since 600 BC. IHSp43

Hierarchy is made up of the seven Ray ashrams or groups of souls.

# Hierarchy: Heart Centre of Sanat Kumara

# The Christ and Love

*Christ is the jewel in the lotus of Hierarchy.*

*He is the embodiment of the second Cosmic principle of Love and Wisdom and*

*being the truest exponent of the second ray ever known on earth, was the greatest of all the healing sons of God.*

*EHp696*

*Christ  
is  
the world Healer  
and  
Saviour*

*ROCp51*

# *Ray Two of Love rules the heart*

*The two  
healing rays  
are R2 and R7*

*The healing ray, above all others, is the second ray. There are two major healing rays among the seven. They are the second and the seventh*

*DINA I p641*

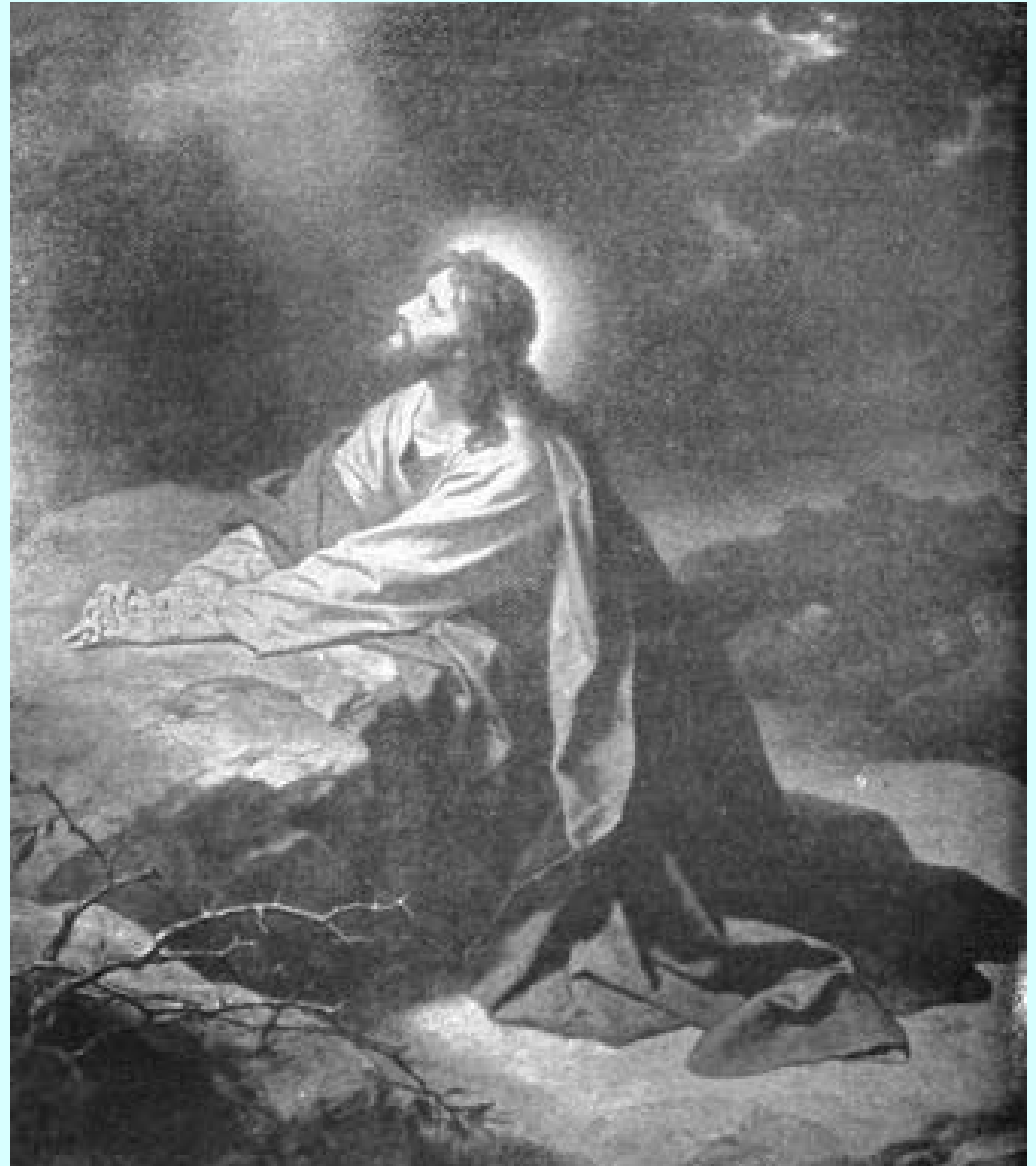

In the Garden of Gethsemane, a new vision dawned upon the Christ's consciousness as he identified with the divine intention of the Lord of the World.

• *Sanat Kumara is the prototype of all world saviours.* DINA II 464

• *The Lord of the World—back in the darkest night of the time .... decided to create this planet of ours for strictly redemptive purposes.*

DINA II p222

# The Christ, Leader of the Aquarian Age will reappear

- ◆ *Christ is the embodiment of The second Cosmic principle of Love /wisdom.*
- ◆ *Seeing the unique opportunity offered to the Planetary Logos through the alignment of the Constellations, Christ as Head of Hierarchy seizes also the opportunity .*
- ◆ *He prepares himself to reappear on earth to bring more teachings to Humanity so as to move the evolution of the Soul/Consciousness forward.*

# The Christ, Leader of the Aquarian Age will reappear

- ◆ *Christ is the Forerunner of the Aquarian Age* ROC79
- ◆ *At the 2025 conclave ,he'll most likely announce the date and the first stage of externalisation of the ashrams involved. EXHp530*
- ◆ *The externalisation of the ashrams and the reappearance of the Christ are all according to the Divine Plan of our Logos.*

# The Stage of the forerunner until 2025.

This stage is analogous to the plough which prepares the soil for seeding.

Our healing group at MF aims at offering itself as a chalice, an instrument of service to Hierarchy for the healing of the soul of humanity as we till the field of men's minds and hearts to be receptive to the seed of the Christ consciousness.
