Morya Federation  
Esoteric Healing Faculty  
Pre Full Moon Garden Visualisation  
Leo  
July 24<sup>th</sup> 2021

# *Preamble*

*There are....three major faculties which the spiritual man can unfold; other faculties and developing capacities are only expansions of these three—*

- 1. telepathic thought, receiving and transmitting;*
- 2. intuitive recognition of truth and its formulation into concepts by the mind, plus the later process of materialising that which has been intuited, the highest form of creative work;*
- 3. healing, with its understanding of energy and forces which will lead later to the rebirth of humanity.*

*DINA I p29*

# Soul Healing or Esoteric Healing

*the power to heal... is one which characterises all liberated souls, no matter what their ray. DINAIp28*

## *Reminder*

- 1.Soul healing ....is the pouring of pure soul energy into and through the bodies of the patient. EH p329*
- 2. The soul is group conscious*

*This work is as yet in embryo and the group consciousness is as yet so young and unpolarised.*

*When men can be trained to be unselfishly and divinely magnetic and radio-active, then there will be poured out upon the world **certain divine forces** which will **vivify and reconstruct**, which will **eliminate the evil and heal the sick**.*

*DINA I p28*

***One of the steps  
in training which  
lies ahead of you  
is the establishing  
of a closer contact  
with me, your  
Tibetan Teacher....***

Owing to the pressure of time and of urgency in service, I am one of several teachers who have pledged themselves for the next few years to keep the *twelve hours prior to the Full Moon of each month open for contacts with their disciples*, so that at any time during that twelve hours, the world servers and disciples can make an attempt to reach

US. DINA I p29

# 1. Make contact with D.K. at time of the Full Moon

*I would, therefore, ask all of you who are my disciples to endeavour to make a contact with me at the time of the Full Moon each month.*

*Make sacrifice in order to establish this monthly relation as I will make my adjustments to contact you.*

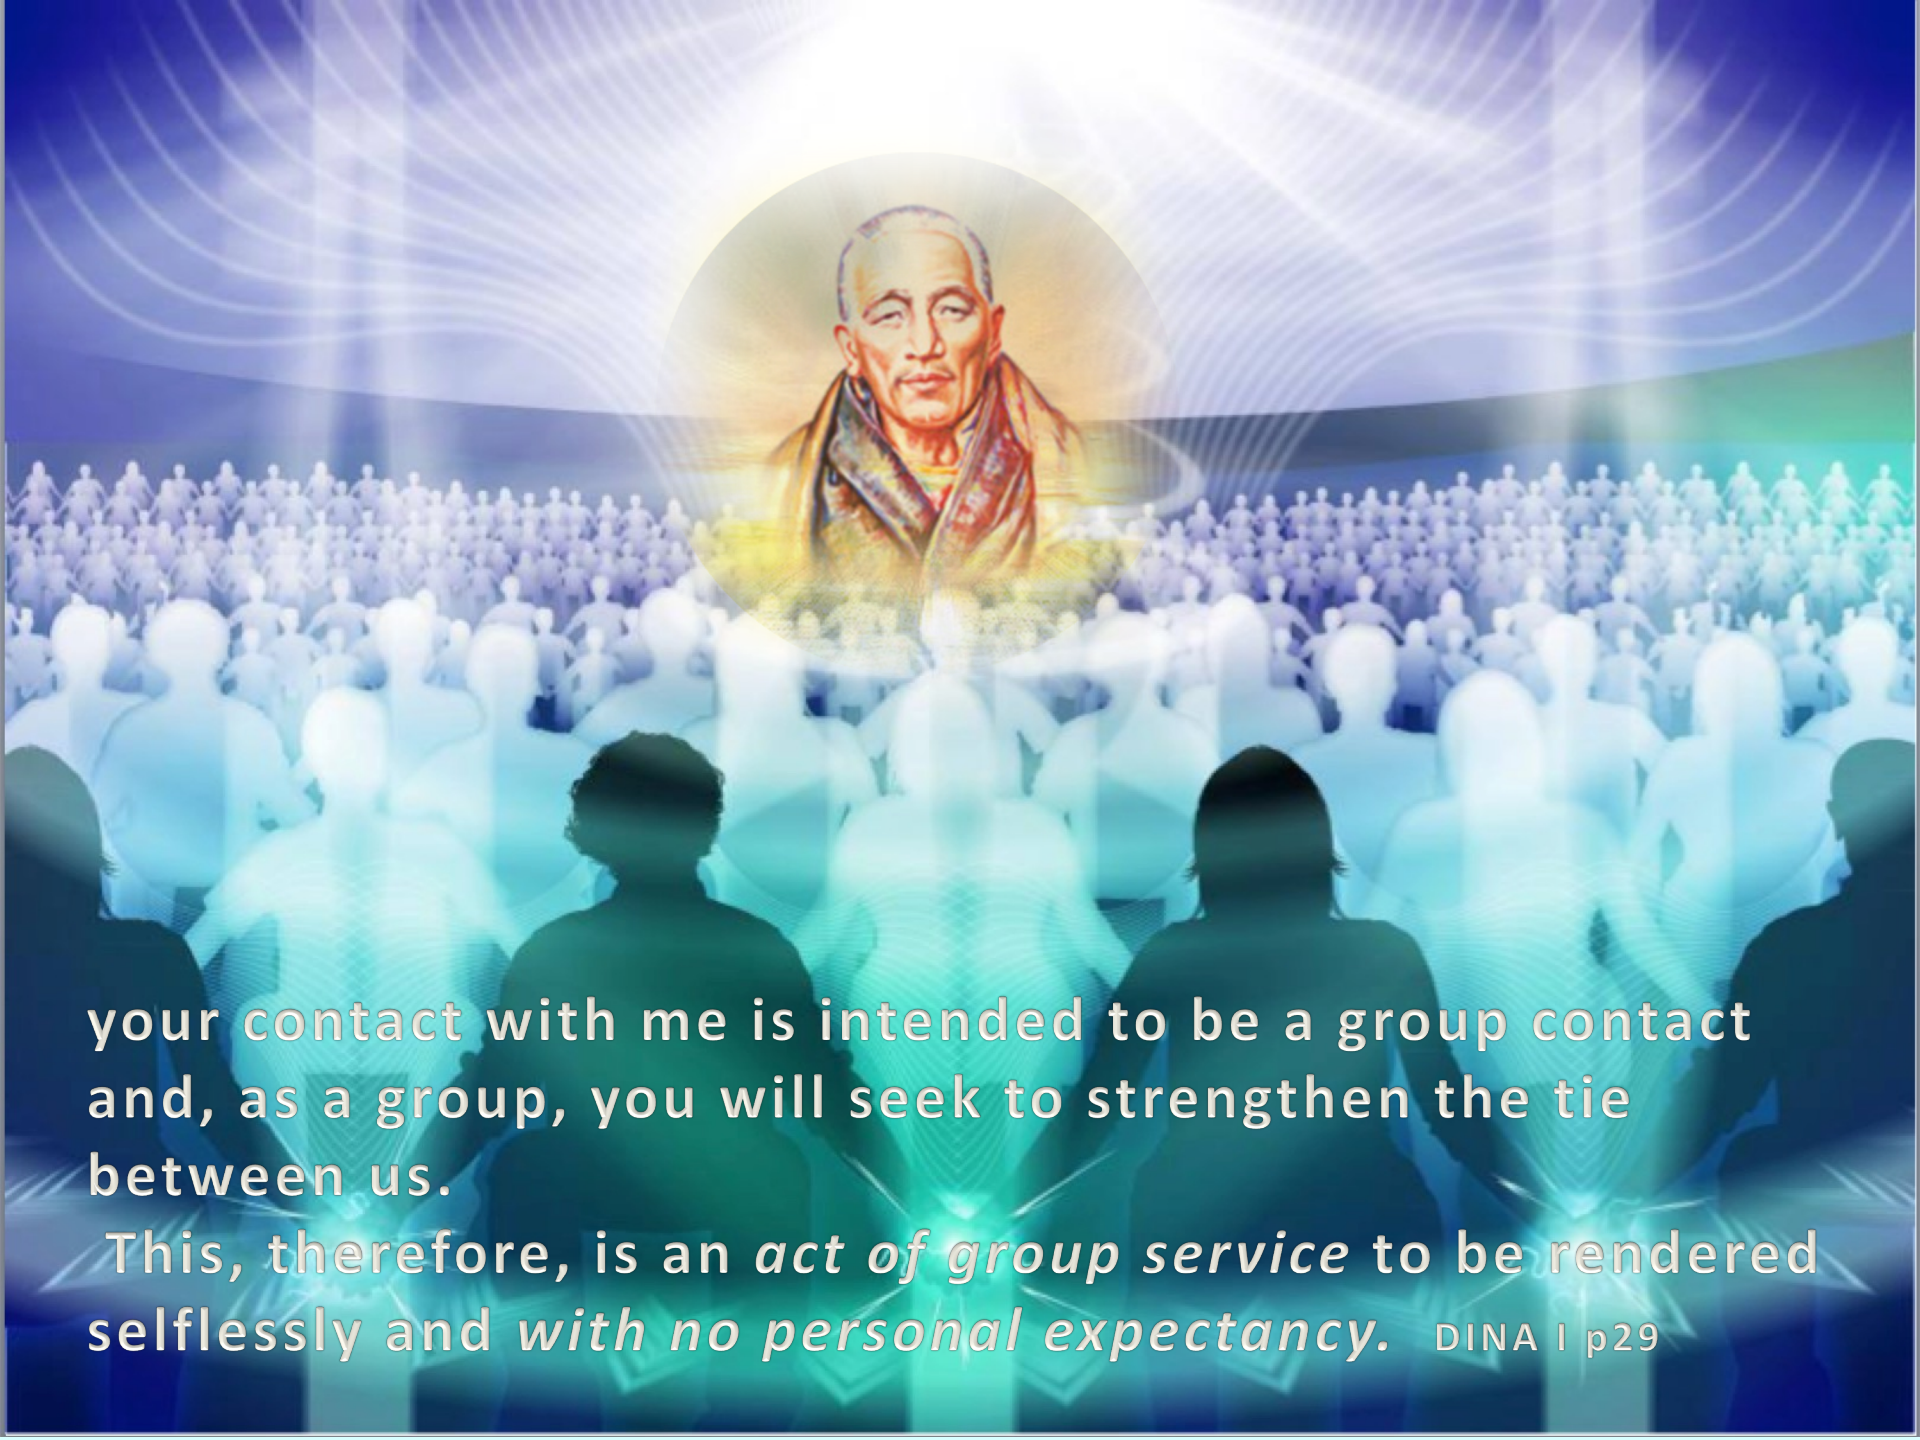

*May I emphasise the necessity for holding the thought of that contact for three whole days prior to the Full Moon itself, with aspiration and with confidence and then for three days afterwards with expectancy. DINA I p29*

## 2. Make your approach as a group

May I point out the prime importance of *making this a group activity* and not a personal contact....

your contact with me is intended to be a group contact and, as a group, you will seek to strengthen the tie between us.

This, therefore, is an *act of group service* to be rendered selflessly and *with no personal expectancy.* DINA I p29

*But at some hour during the preceding twelve hours, you can make your approach.*

*When you do so rightly, you will find me waiting.*

*Go to your work with clear vision, a loving heart and an understanding love.*

*Much can then be accomplished. DINA I p29*

# Why a garden?

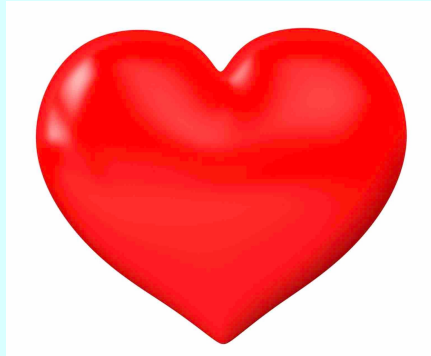

*The vegetable kingdom is the outstanding contribution of our Earth to the general solar plan...*

*this is possible because it is the only Kingdom in which three rays have finally succeeded in coalescing, in fusing and blending;*

*they are also the three rays along a major line of forces, 2-4-6. EP I p217*

# Correspondences of the vegetable kingdom in the human body

The heart chakra  
and the physical  
heart

*In the vegetable kingdoms,  
to this faculty of  
**discrimination** is added  
that of **response to  
sensation**, and the  
rudimentary condition of  
the second aspect of  
divinity is to be seen*

**IHS 21**

The throat chakra  
and  
the Lungs  
EP I p220

*The major impression registered in the second kingdom of nature emanates from the angel worlds and from the deva hierarchy.*

The angels and devas are to the vegetable kingdom what the spiritual Hierarchy is to humanity TEV p78

# D.K.'s advice to C.D.P

*For years, my brother, I have referred frequently to your garden of beauty. First of all, I had to lead you to **create it**; later I taught you to **perfect it** and then to **use it**.*

*I taught you also how to **dedicate it** and to turn it into a shrine of consecration and connect it in your mind with the **thought of service**.*

*That which is thus created and used, exists. Today I would like to tell you that on the inner planes your garden is of service to my group of disciples and to others—in larger numbers than you think.*

*It is a place of gathering for many and a place of refuge for a few. DINA I p522*

# D.K.'s instructions to C.D.P and applying it to our group

*Enter your tower and climb to the summit and then release the light which is in you; this will be to the garden of your soul what the sun is to the gardens of the world.*

*Watch the rays of light pouring out over the garden,*

- *awakening it to colour and beauty,*
- *arousing it to movement and life, and*
- *calling forth the song of the birds and the hum of the bees and*
- *evoking it to a responsive loveliness.*

*There I may meet you when the clouds of glamour roll away.  
Ponder on the symbolism hidden in this garden and work steadily for the next few months from this centre of love and light. DINA I p514*

*Let's continue to build our healing garden, as a group, at some point within the 12 hours prior to each full moon, meeting D.K. there, 'turning our garden into a shrine of consecration' and intending to offer our group as a vehicle for the Love of Hierarchy to be poured in selfless service to humanity.*

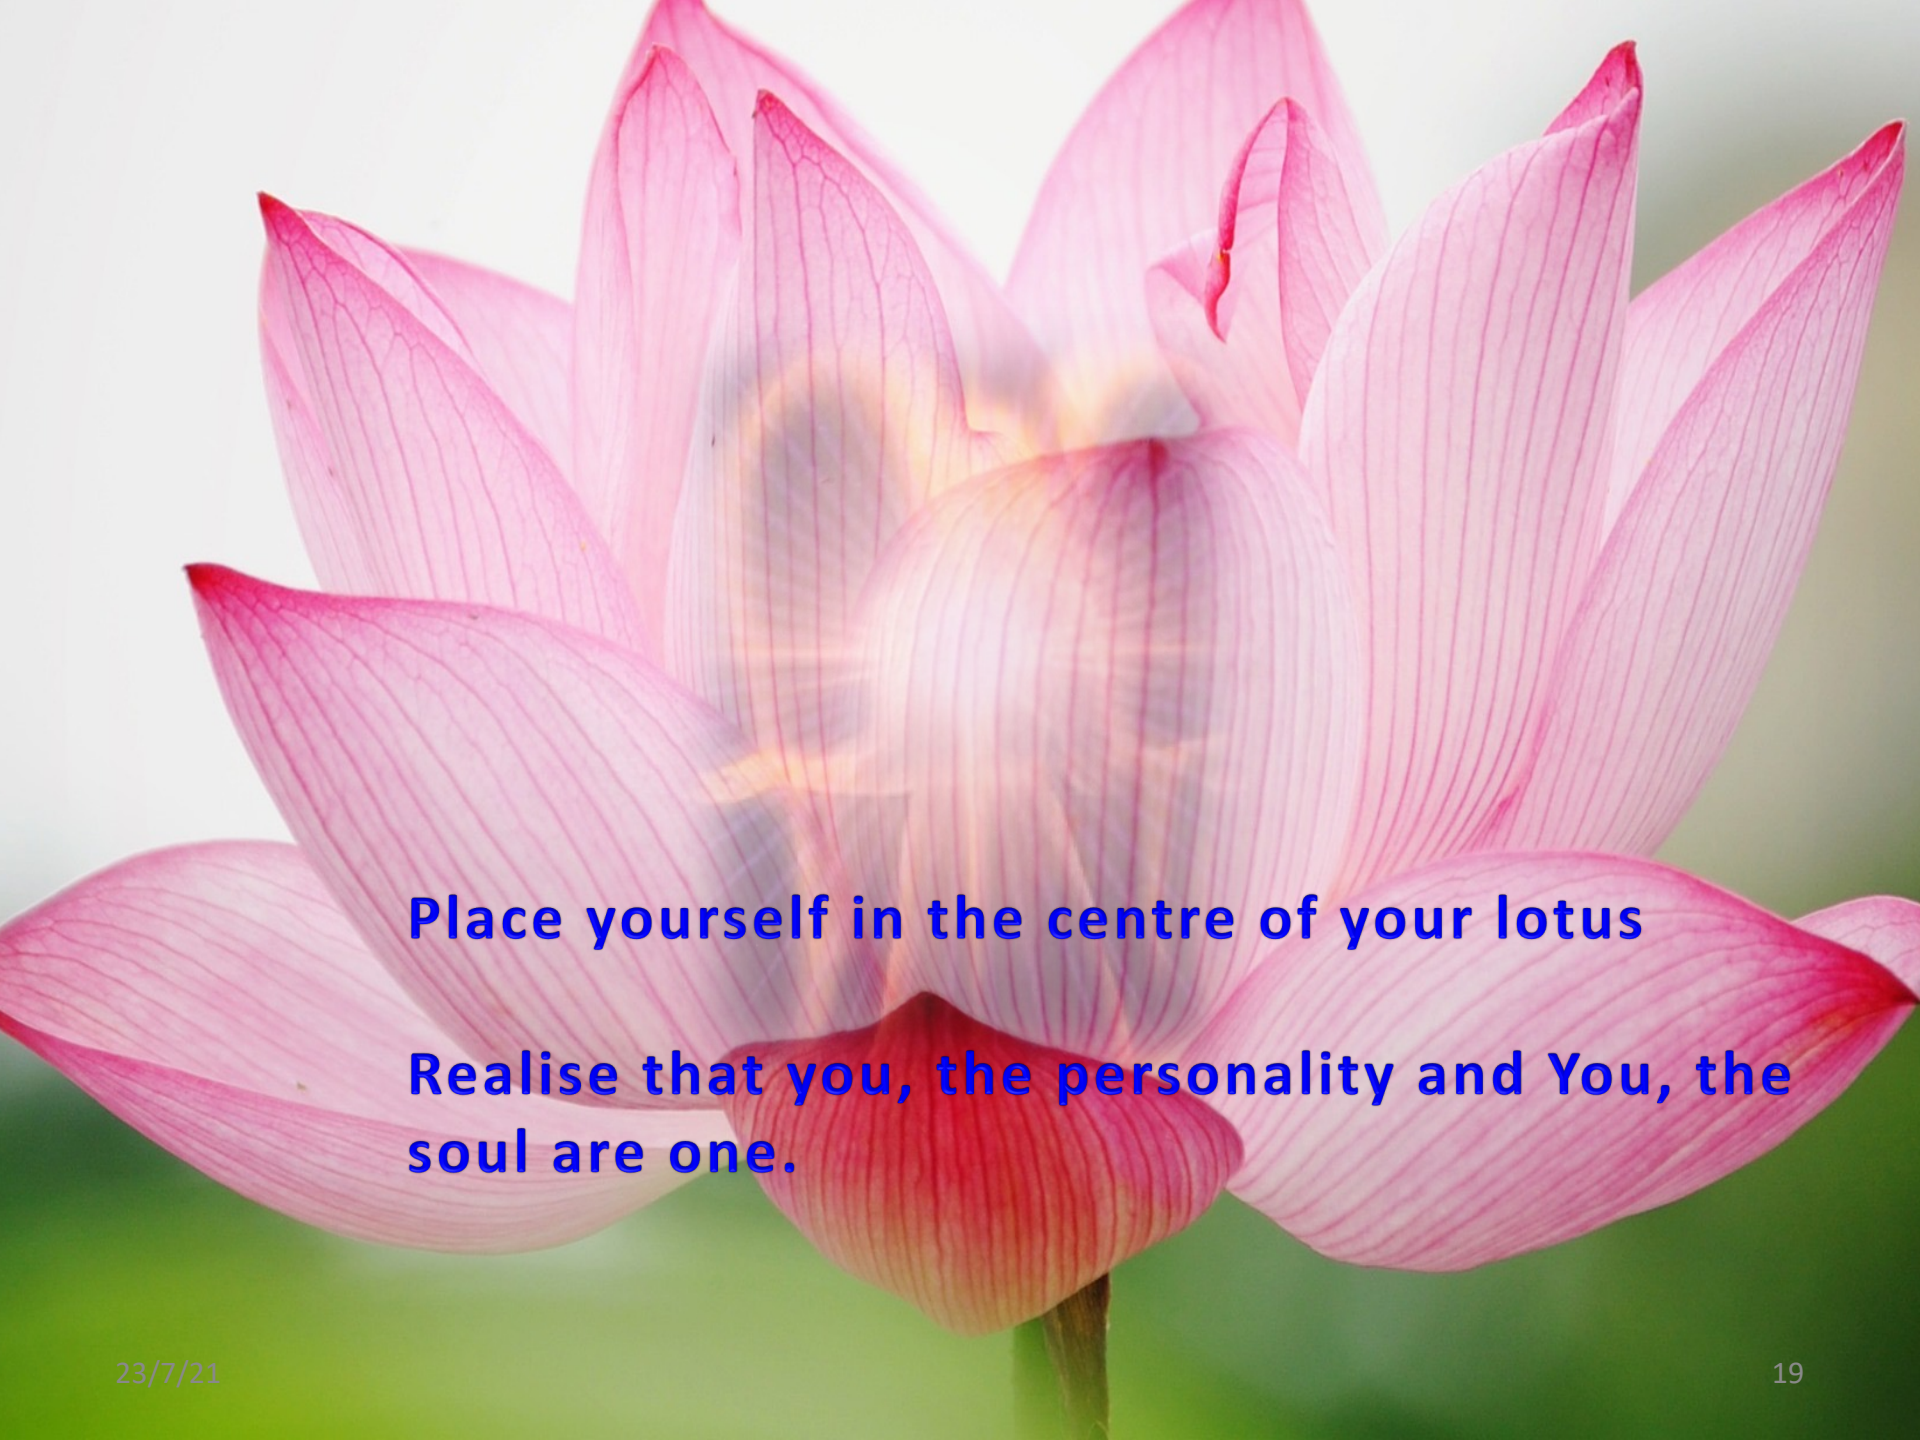

*Let's gather in our  
garden*

# Alignment with own soul

## *I. Start with the point of soul focus ....*

- Raise the consciousness into the head.... as high in the head as you can.*
- Carry consciousness upward through the astral body and the mind to the soul.*
- Visualise a lotus fully opened scintillating with light as a symbol of your soul body*

**Place yourself in the centre of your lotus**

**Realise that you, the personality and You, the soul are one.**

***II. From that point, definitely and consciously, assume the attitude of the Observer.***

- Observe the personality ‘below’***
- Visualise your etheric body. See energy flowing freely up and down the etheric spine.***
- Consciously throw soul energy down into the centre at the base of the spine. (You may use indigo blue light)***
- Then raise it slowly, via the five centres up the etheric spine then to ajna and crown up into the soul body.***

Say the soul mantra

***I am the Soul***

***I am Light divine***

***I am Will***

***I am Love***

***I am fixed design***

**Sound an OM as if you were the Soul.**

# Arches of roses

*At the entrance to our garden, we stroll through arches of climbing roses, clusters of flowers in abundance overhead... choose the colour(s) you like.*

*Let the roses gently caress your face, as if welcoming us to the garden*

*Breathe in the delicate aroma of the cascading colourful roses percolating through the air...*

*Small lovingly trimmed emerald green bushes line the stony pathway...*

# Beds of flowers

*Along an embankment at the end of the archway, there are rows and rows of flowers, flowers of different hues and harmonising tones of red, yellow, pink, white, cream, orange and magenta.*

*As we create these rows we include our own favorite flowers....*

*The blooms shed fresh petals on the path creating a soft carpet for us to walk on, releasing their individual fragrances as we step on them...*

The background image is a composite of several elements. At the top, a bright light source, possibly the sun or moon, is partially obscured by a dark, swirling cloud. From this light, numerous thin, white, curved lines radiate outwards, resembling a spiral or a series of concentric arcs. In the center, a tall, white lighthouse with a dark, tiered top stands prominently. The lighthouse is surrounded by a large, dense crowd of people. The people are depicted in a stylized, almost ethereal manner, with some appearing as white silhouettes and others as more solid, glowing figures. The overall color palette is dominated by deep blues, purples, and whites, creating a mystical and spiritual atmosphere. The text is overlaid on this scene in a bold, orange-brown font.

On the opposite side of embankment, we see right in the middle of our space of harmony, a lighthouse standing tall and strong shining beams of light in all directions as a symbol of our united group soul.

As we assemble there quietly, we hear a choir of birds fill the space with their clear melodious notes welcoming us to this unique space...

A chorus of angelic voices sing a soft tune accompanied by the sound of harps, devas gently strumming the cords...

A photograph of a forest with tall, slender trees. Sunlight is streaming through the canopy, creating a warm, golden glow and long shadows on the ground. The text is overlaid on the image in a white, italicized font.

*Sitting still around the lighthouse, we feel  
the gentle warmth of the rays of the sun...*

*In the background, the breeze softly  
swishing through the tall eucalyptus trees  
chants a melodic lullaby..*

*These majestic trees cast their protective  
shadows on the grass as sunlight peeps through  
this peaceful garden...*

**Around the lighthouse, we see a large quiet pool of crystal clear blue waters... Flowing from the pool we see rivulets as we hear the gentle trickle of water. We also see three wider streams of golden water flowing steadily.... Across them are curved wooden bridges.**

*In one area of the pool float lotuses of all colours in all stages of bloom, some are in full bloom revealing their gorgeous jewel while others are just budding and barely showing their true colour.... All reflecting their light in the healing waters*

Just beyond the pool, a hidden path leads to a cosy and serene corner. A few chairs or a bench and a small fountain containing supercharged vitalising water, perfumed by a single floating lotus, create the perfect spot for an informal sharing of one's difficulties or words of wisdom.. Inhale the perfume of the flowers imbuing and permeating the air. Everything in this garden quivers with livingness...

# Waterfall

*In the distance, we hear the soothing sound of water and we follow it...*

*We come to a tranquil pool where cascading water gently hugs rocks as it joyfully spills in a blue pool while bubbles of spray ricochet spiritedly in the air...*

Lush ferns alongside the rocks draping in the water enhance the serenity of the place... while the fiery brilliance of the orange and red leaves of surrounding trees brings warmth and invigorating energy to the area....

*in our mind's eye, we follow a pathway which leads us to flower beds. They are a riot of spring colour: reds.. Creams Yellows.. Pinks... of such vibrancy... winding their way like a gentle living stream among the trees... A row of violet flowers on either side of the meandering bed happily follows the path of the flowers as they release their subtle perfume ...*

*Butterflies flutter  
through the air with  
their iridescent  
wings attracted by  
the silent serenade  
of the blooms... they  
are like the flowers  
of the air...their  
delicate and fragile  
wings are like  
floating petals,  
catching the light  
and twinkling like  
diamonds in the air...*

*Buzzing bees surf the open spaces from flower to flower seeking pollen....*

*The pollen look like scintillating bright golden pixie dust...*

*Nearby, the soft and gentle babble of the sound of  
the fountains reaches our ears .....*

lush green grass lines a gentle  
stream like a soft velvety  
carpet..

The air is full of the sweet fragrance of the flowers in full bloom adorning the fringes of the streams in this tranquil garden quivering with life...

# Create your own corner

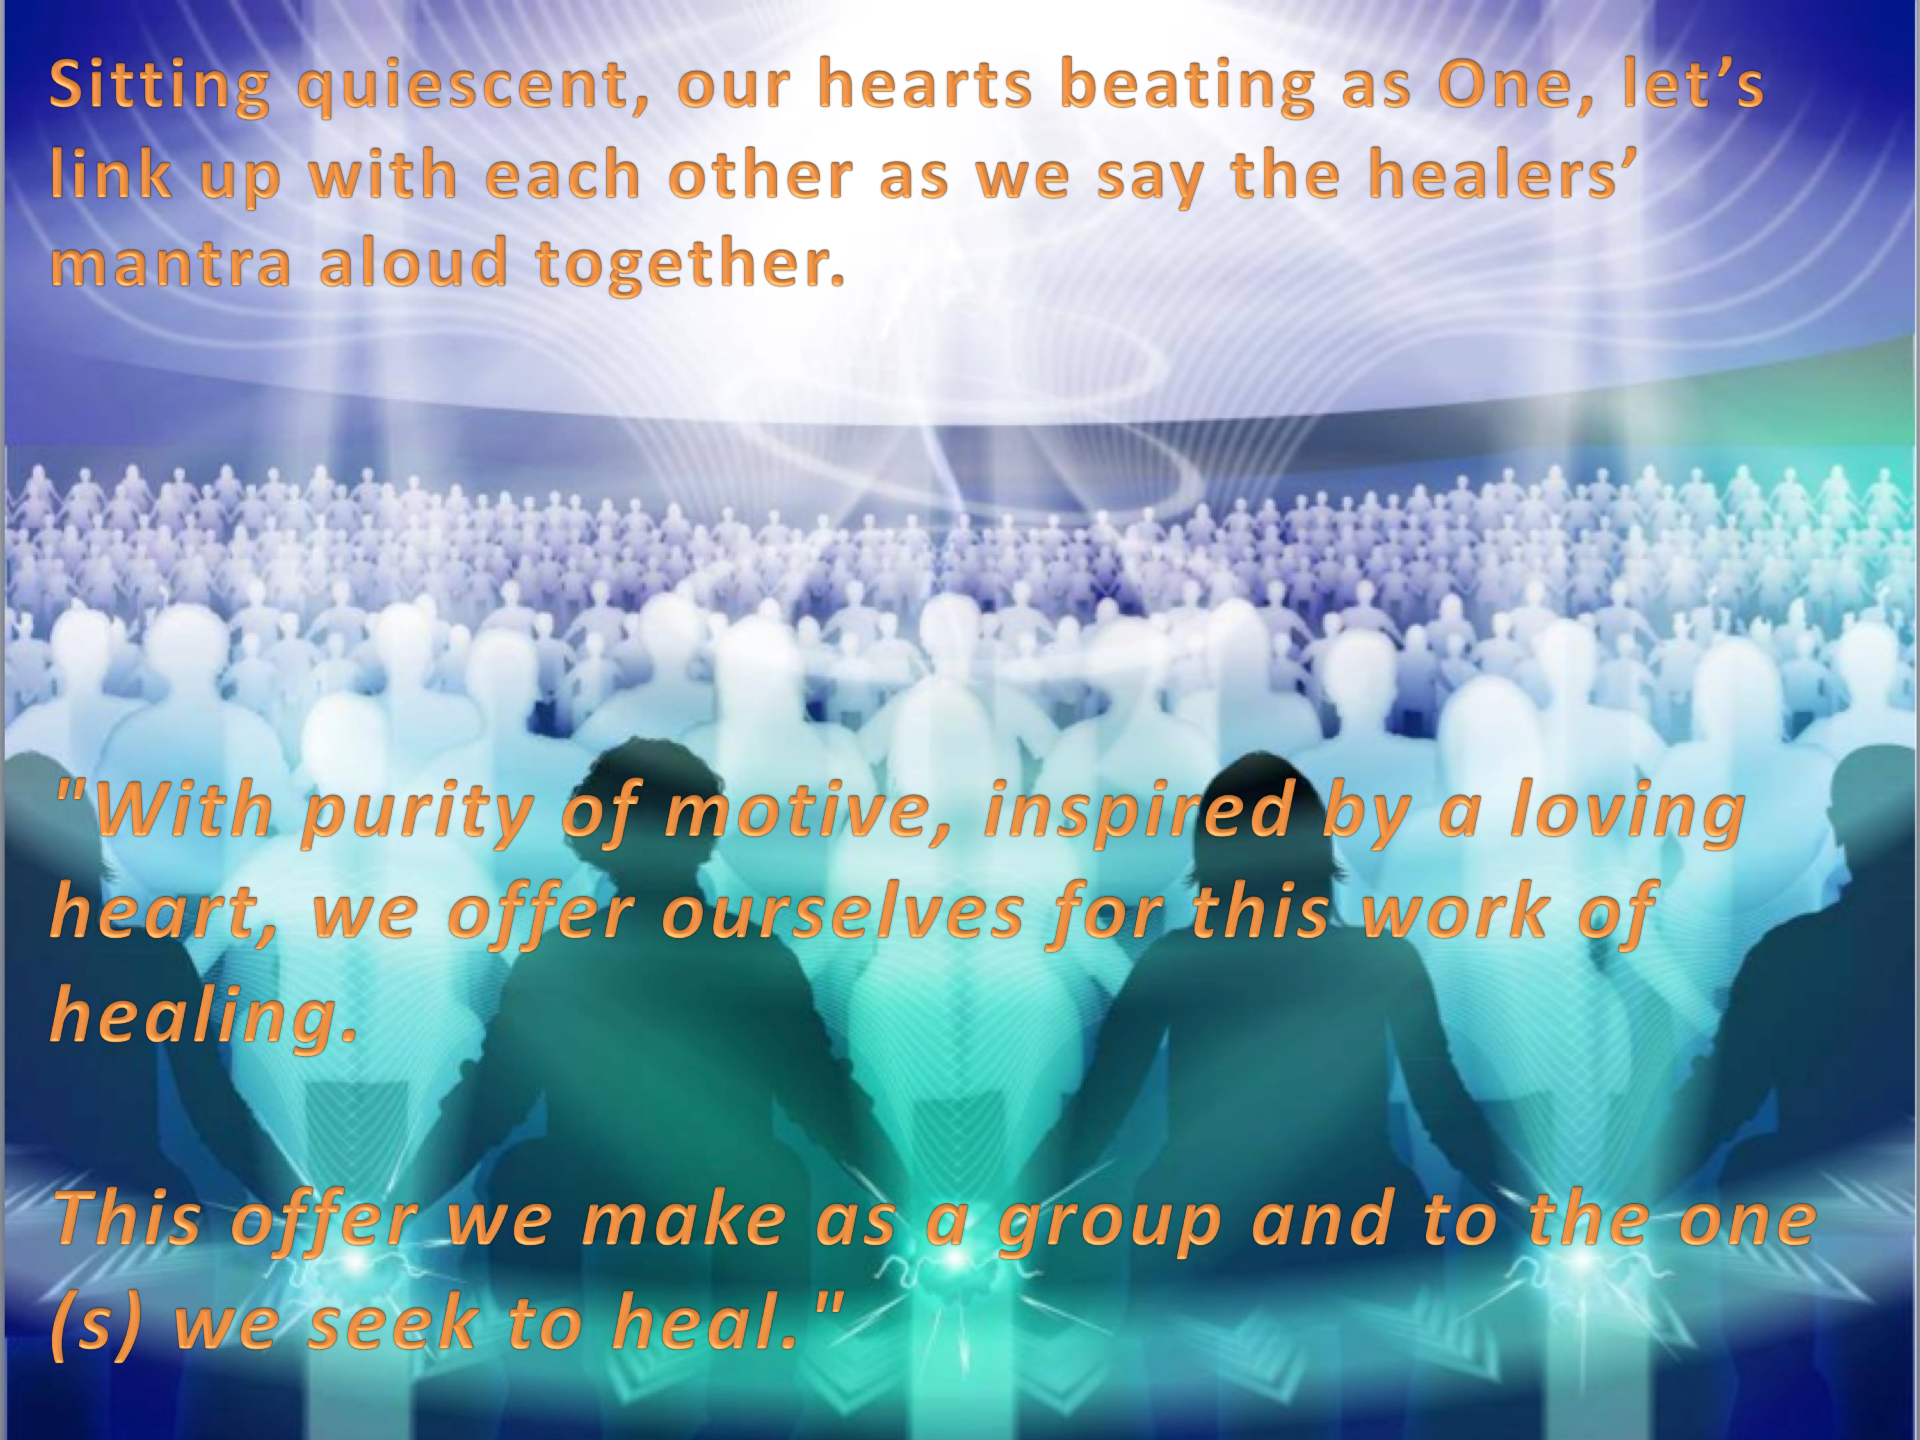

*This garden that we have just created is our garden, our group garden but let's take a moment to add a little corner which has our individual touch.*

*Add the colours, the unique features and flora of your own country that you'd like to blossom in this tranquil and serene space.....*

*Let's invite also the presence and cooperation of the healing devas/angels working under Christ. Visualise them in our garden enlivening it with their magnetism*

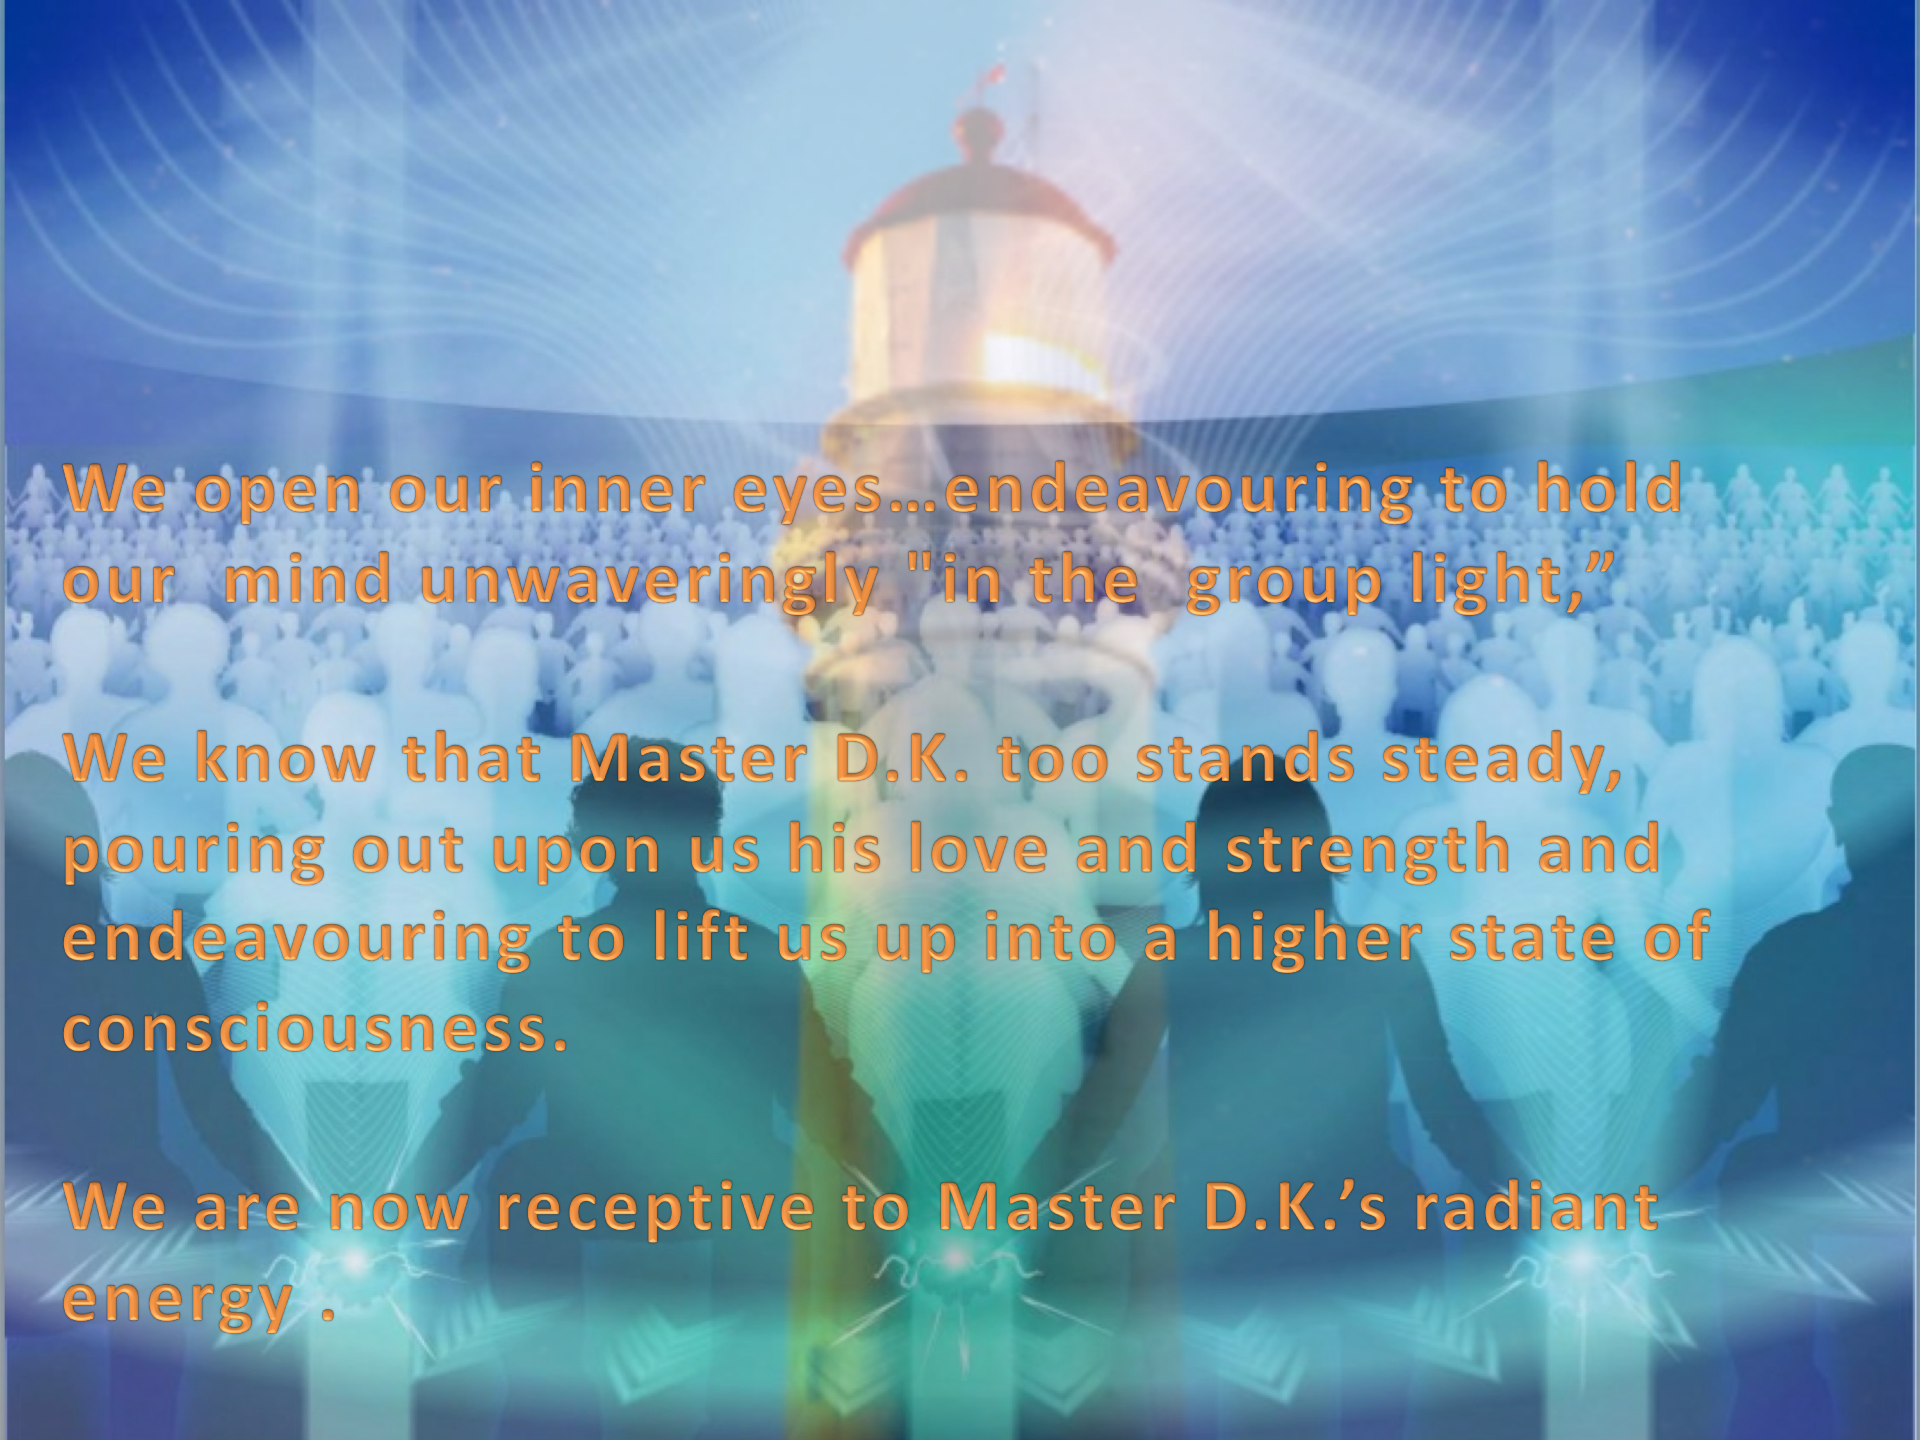

The background image depicts a large crowd of people, mostly seen from behind, sitting in a meditative posture. They are surrounded by vibrant, glowing energy fields in shades of blue, green, and purple. These fields manifest as concentric circles, spirals, and beams of light, suggesting a collective energetic or spiritual experience. The overall atmosphere is serene and powerful.

Sitting quiescent, our hearts beating as One, let's link up with each other as we say the healers' mantra aloud together.

*"With purity of motive, inspired by a loving heart, we offer ourselves for this work of healing.*

*This offer we make as a group and to the one (s) we seek to heal."*

The background of the image features a lighthouse with a glowing light at the top, casting a powerful beam of light downwards. This beam illuminates a large, dense crowd of people, whose silhouettes are visible against the light. The overall color palette is dominated by blues and greens, with the light from the lighthouse providing a warm, yellowish glow. The text is overlaid on this scene in a bright orange color.

We open our inner eyes...endeavouring to hold  
our mind unwaveringly "in the group light,"

We know that Master D.K. too stands steady,  
pouring out upon us his love and strength and  
endeavouring to lift us up into a higher state of  
consciousness.

We are now receptive to Master D.K.'s radiant  
energy .

The light of the light house like a sun,  
begins to shine brighter and brighter ,  
intensifying gradually.

Soon this light begins to take shape and a  
definite figure appears.  
It's that of Master D.K.....

...

From the lighthouse, waves of golden light stream through our group, irradiating the garden around us, enlivening it even more..... imbuing our garden with the Second Ray of Love and Wisdom, lovingly bestowed by the Sun, the triple ruler of Leo.

Feel the energy of unconditional love fill the space and our heart...

*Leo is the focal point for the expression of the second aspect, the love-wisdom or consciousness aspect.*

*This, primarily where humanity is concerned.*

*EA p194*

Regulus is the brightest object in the constellation Leo and one of the brightest star in the night sky

*a star of the first magnitude and which is frequently called "the heart of the Lion." EA300*

# In Leo a unique condition: The Sun- triple ruler of Leo

*In Leo there is an almost unique condition where humanity is concerned as the Sun governs all expressions—exoteric, esoteric and hierarchical.*

*EA147*

*Why is that so? because*

*the purpose of this solar system is the unfoldment of consciousness, and if, for the strictly human being, self-consciousness is the goal, then the Sun must obviously rule,*

*for it is the source of physical consciousness (exoteric and symbolic of the personality), of soul awareness (esoteric), and of spiritual life (hierarchical). EA p294*

*The sun ruling Leo bestows its life giving force onto our solar system, reaching our planet Earth and all its kingdoms*

*Its life-giving force reaches every corner of our planet, vivifying, stimulating, energising every thing its rays touch.*

*Subjectively too it strengthens, nurtures and sustains Love within the human heart.*

*To the higher initiate, in whom the true nature of the spirit aspect begins to dawn upon his liberated, intuitive perception, it reveals the exquisite divine Plan and union with the life of the whole.*

*See the rays of the Leo Sun lovingly vivifying,  
stimulating and energising every part of  
our garden...*

*Feel the radiance of the Sun warm our  
hearts...*

# The mottoes for Leo - the sign of Self consciousness

*For the ordinary man*

*I Am—the Word of the self-conscious, selfish, self protecting instinct of the 'I' in the individual Leo whose eyes are turned downwards towards gains of material life*

*For the disciple*

*I Am That—the Word of the Leo subject whose upward and inward gaze towards selflessness, self-sacrifice and service to the whole, “is rapidly gaining the higher consciousness and preparing for fresh and universal expression in Aquarius.” EA p311*

#### ***Esoteric Healing Law IV***

***The art of the healer is concerned with the lifting of the downward focussed eyes unto the soul, the Healer within the form.***

***Master D.K. directing the Leo Sun, bathes our garden in the Love and Life of "I am That" the aquarian, universal or group consciousness, (Aquarius the polar opposite of Leo)***

***The One Soul identified with the whole, selfless and self sacrificing***

***May it lift the downward focussed eyes of those who seek solace in our garden unto the soul the true Healer within the Form***

Leo /Aquarius /Taurus /Scorpio-  
Leo-one arm of the Fixed cross,  
the Cross of Light

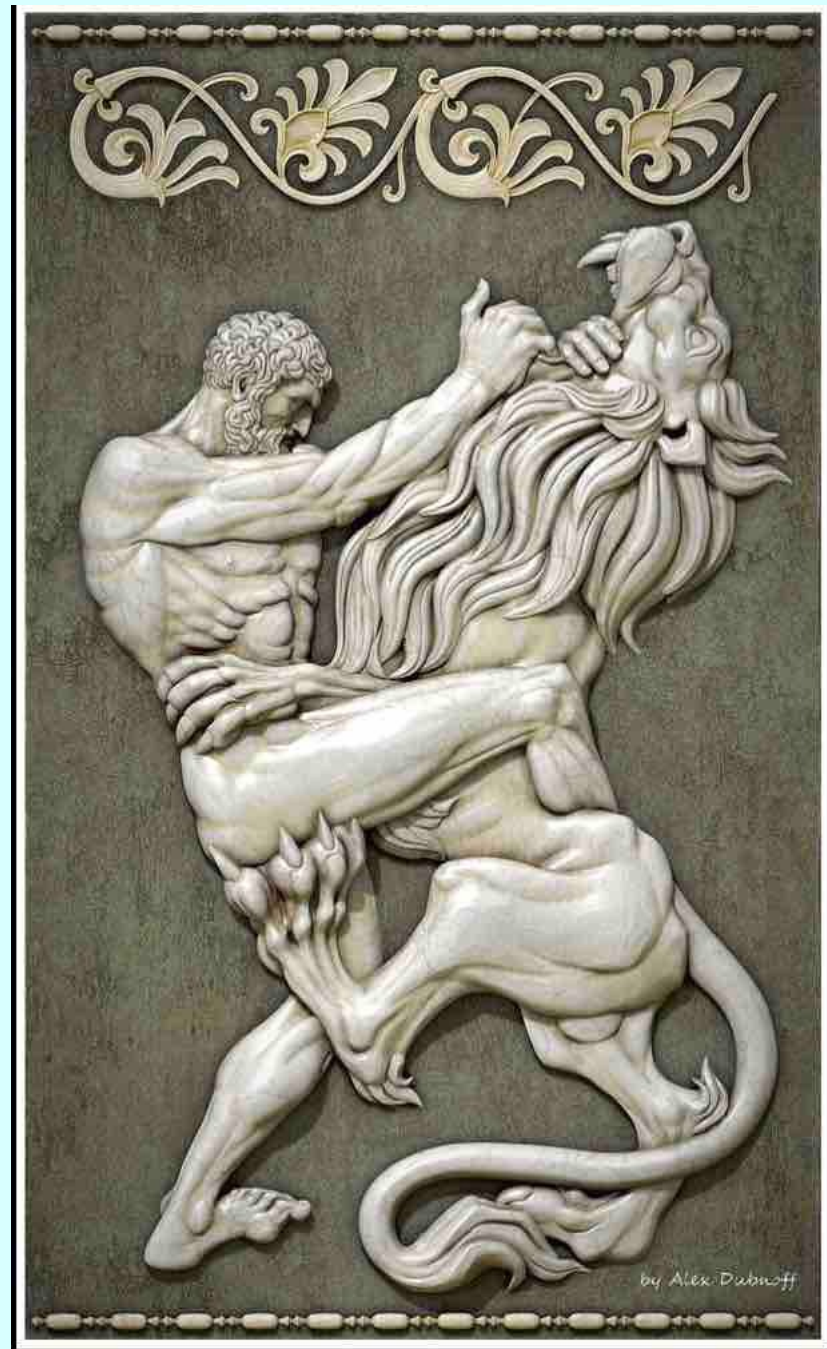

*the effect of the Fixed Cross  
is to bring light and  
liberation..*

*demonstrated by the man  
both before and after the  
long and drastic  
experience upon the Cross.*

**2. Leo.**

**—The Lion of Self-assertion.  
The Light of the Soul.**

EA p293

*Playing through this Cross (Fixed cross ) all the time, and emanating from Leo, are the "fires of God"—cosmic, solar and planetary—producing purification, the intensification of the light and eventual revelation to the purified man who stands in light...*

*from Leo comes solar fire (which ) "clears the way by burning" for the expression of the soul EA p293*

**Leo - a fire sign  
sign of  
purification**

***Leo is a fire sign, and  
it is the pre-eminent  
fire sign at this time.***

***The Sons of Mind, the  
self-conscious Sons of  
God, are above  
everything else the  
Sons of Fire,  
for our "God is a  
consuming Fire."***

**The Sons of Fire**

There is in them that peculiar quality which  
can burn and destroy and so eradicate all that  
hinders their essentially divine expression.

EA p287

# Personality captive of the Soul

*In Leo—The self-centred man becomes eventually the soul in life expression and focussed on the achievement of the spiritual goal of selflessness....*

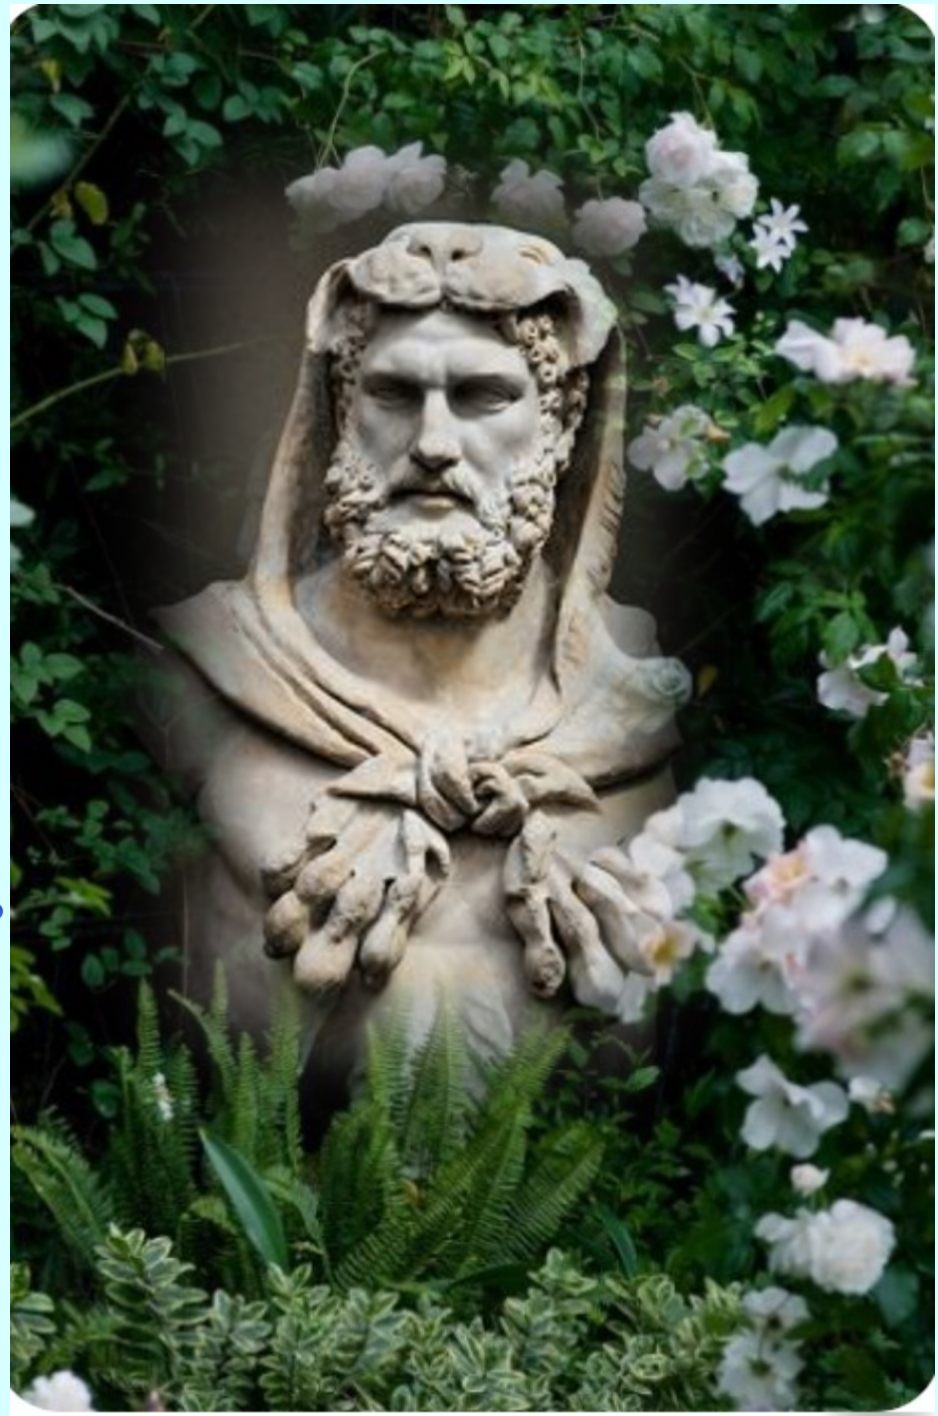

*becoming "the Lion who seeks his prey," that is the personality who becomes the captive of the soul.*

*EA p143*

*In one section of our garden, let's place a statue of Hercules, wearing the lion's skin as a symbol of his triumph over the Nemean lion, the symbol of the strong, selfless & loving soul in control of the personality and of self assertion.*

*let his strength, fearlessness and courage imbue the surrounding flowers and bushes and inspire those who are heartened by our garden.*

# Soul : sensitive theme of the divine Plan

To truly understand the influences of Leo upon human beings ... as well as its influences upon the planet, we have to bear in mind that

*Throughout the universe, it is the soul which is the conscious, sensitive theme of the divine plan EA p295*

Whether it's

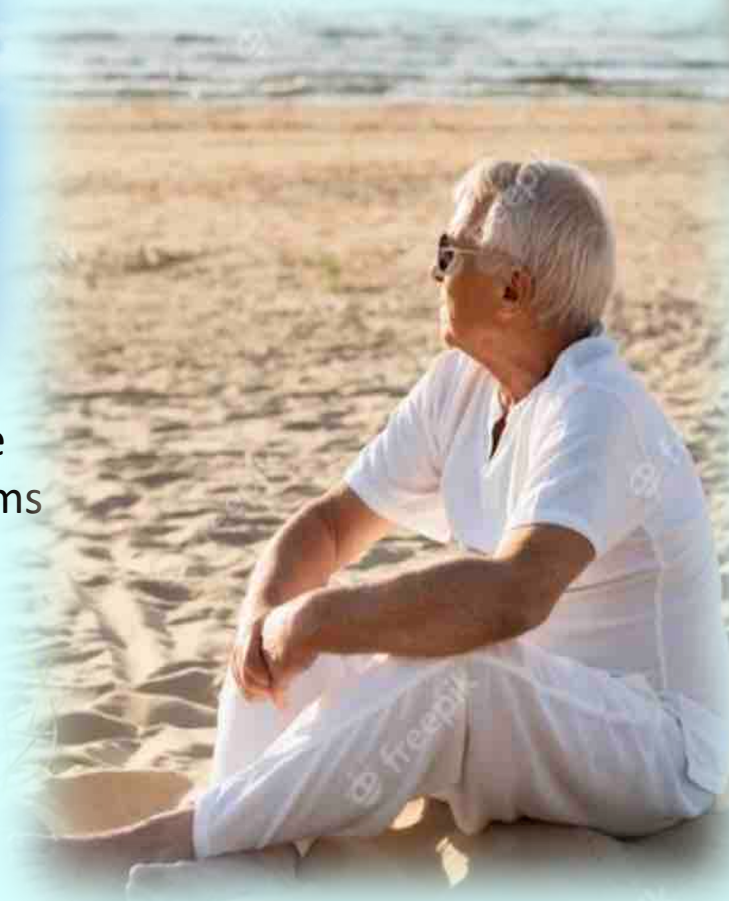

the soul as the **anima mundi** or the soul of the world, animating all forms of life below the animal kingdom;

the soul as the  
animal soul

the soul as the **human soul**, which is a still further expansion of the same sensitive factor but augmented or stimulated by the principle of self-awareness  
**plus awareness (conscious or unconscious) of the immortal or divine soul;**

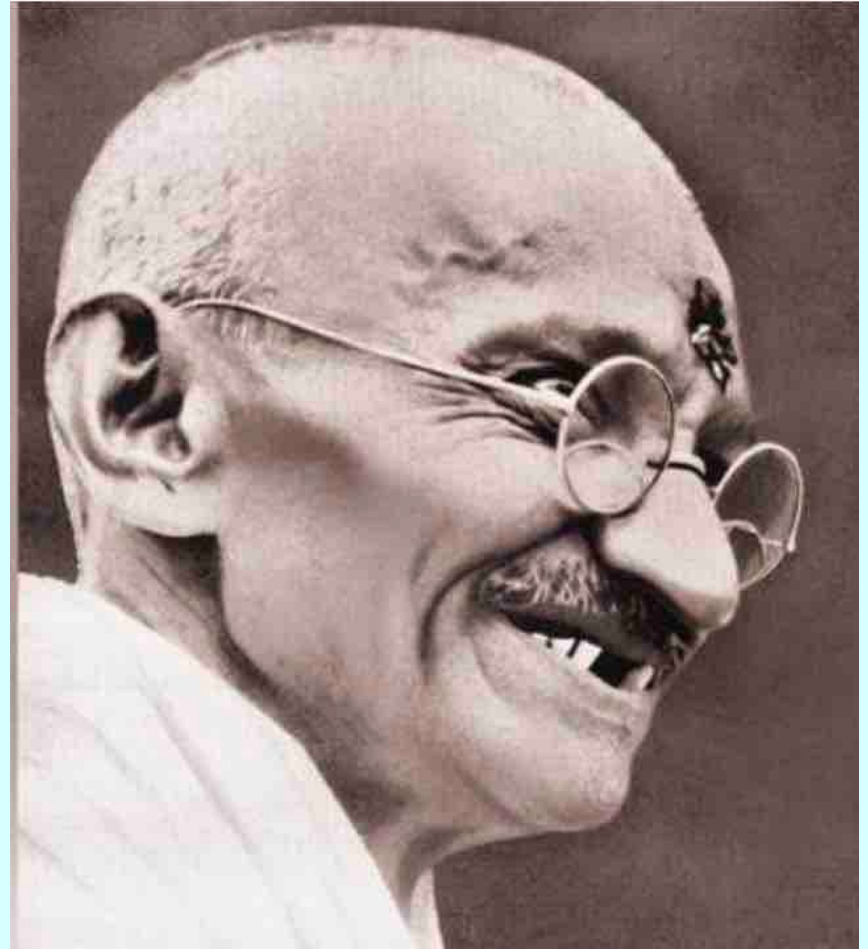

**Or**

***the soul as the ego or  
spiritual soul on its own  
plane ....***

***(When) the liberated man  
begins the arduous task of  
conditioning it in relation  
to the divine plan and  
purpose and***

***at the same time to  
cultivating sensitivity to  
the higher impacts of  
those worlds which lead to  
the final goal EA p295***

*The three aspects of the Sun ...produce eventually (at the final revelation and liberation) the full expression of the consciousness of Deity.*

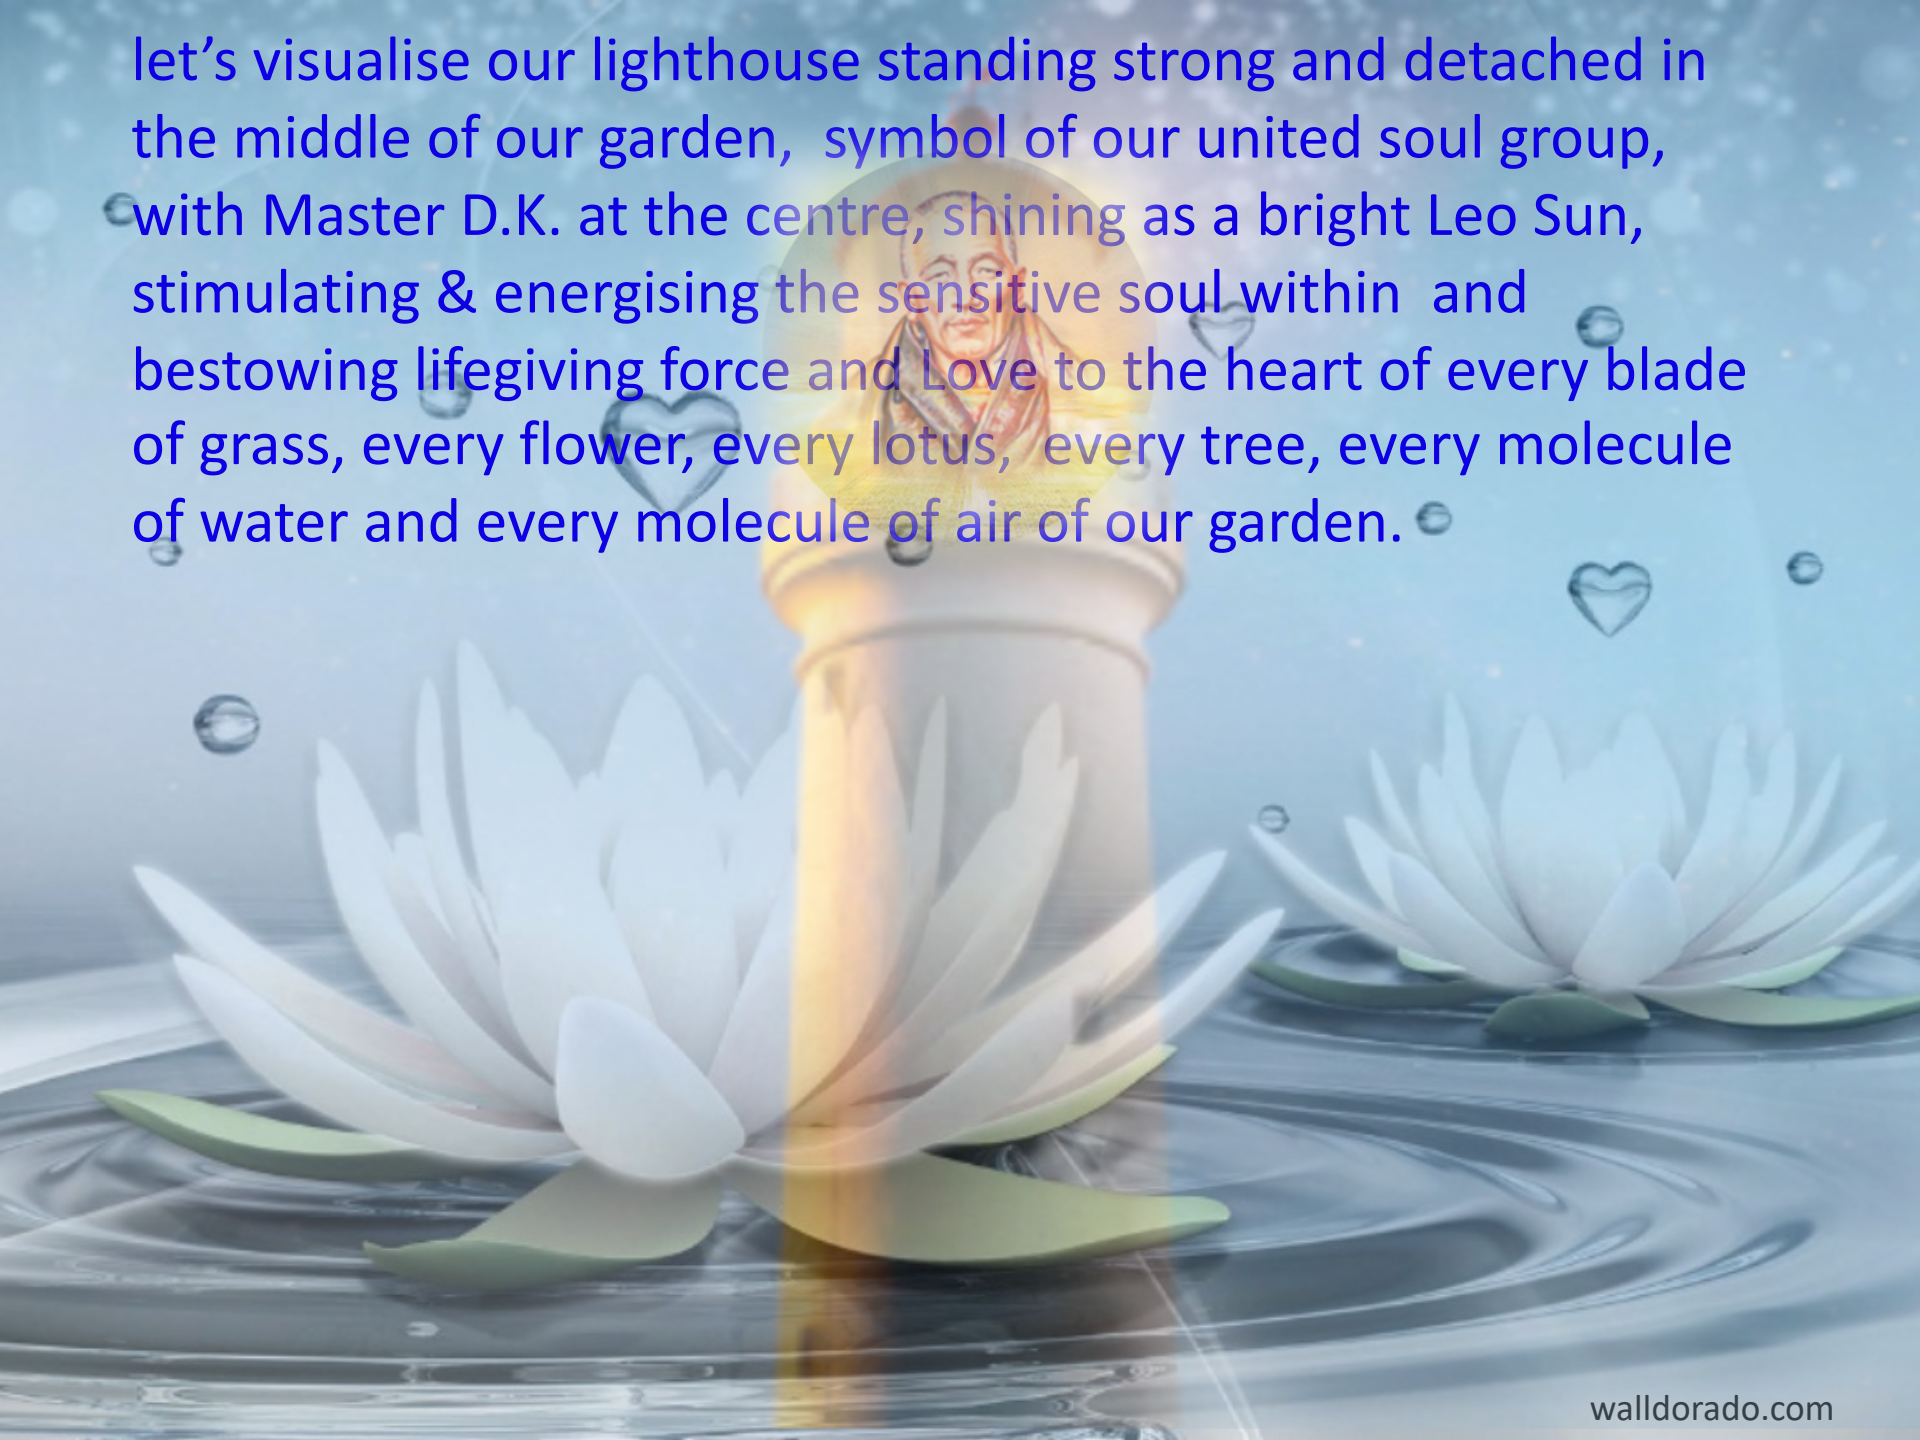

*This can be called divine sensitivity, the universal mind or the divine plan or purpose. EA296*

*These three aspects of the Sun are the factors which bring consciousness to the birth and make the ultimate goal attainable;*

*they make all forms of consciousness possible because these are rooted in the Sun (symbolically speaking) and are an inherent aspect of the greater whole.*

- 1. The physical Sun—the anima mundi; the animal soul. Multiplicity.*
- 2. The heart of the Sun—the human soul and the divine ego. Duality.*
- 3. The central, spiritual Sun—the divine consciousness. The will of the whole. The awareness of God. Unity. EA p296*

let's visualise our lighthouse standing strong and detached in the middle of our garden, symbol of our united soul group, with Master D.K. at the centre, shining as a bright Leo Sun, stimulating & energising the sensitive soul within and bestowing lifegiving force and Love to the heart of every blade of grass, every flower, every lotus, every tree, every molecule of water and every molecule of air of our garden.

# Making use of our garden

Now that we have imbued our garden with the Loving qualities of Leo, sensitivity and divine purpose as well as the life giving energy of the Sun under the direction of Master D.K., Let's distribute as a united group soul these energies freely and selflessly to humanity

**by visualising the flow of unconditional Love or the will-to-good emanating from the triangle :**

- Avatar of synthesis-
  - Spirit of peace-
  - The Buddha
- powering the Christ at the centre**

The Avatar of Synthesis:  
Power/Spiritual Will  
implementing both light and love

The Buddha: Light

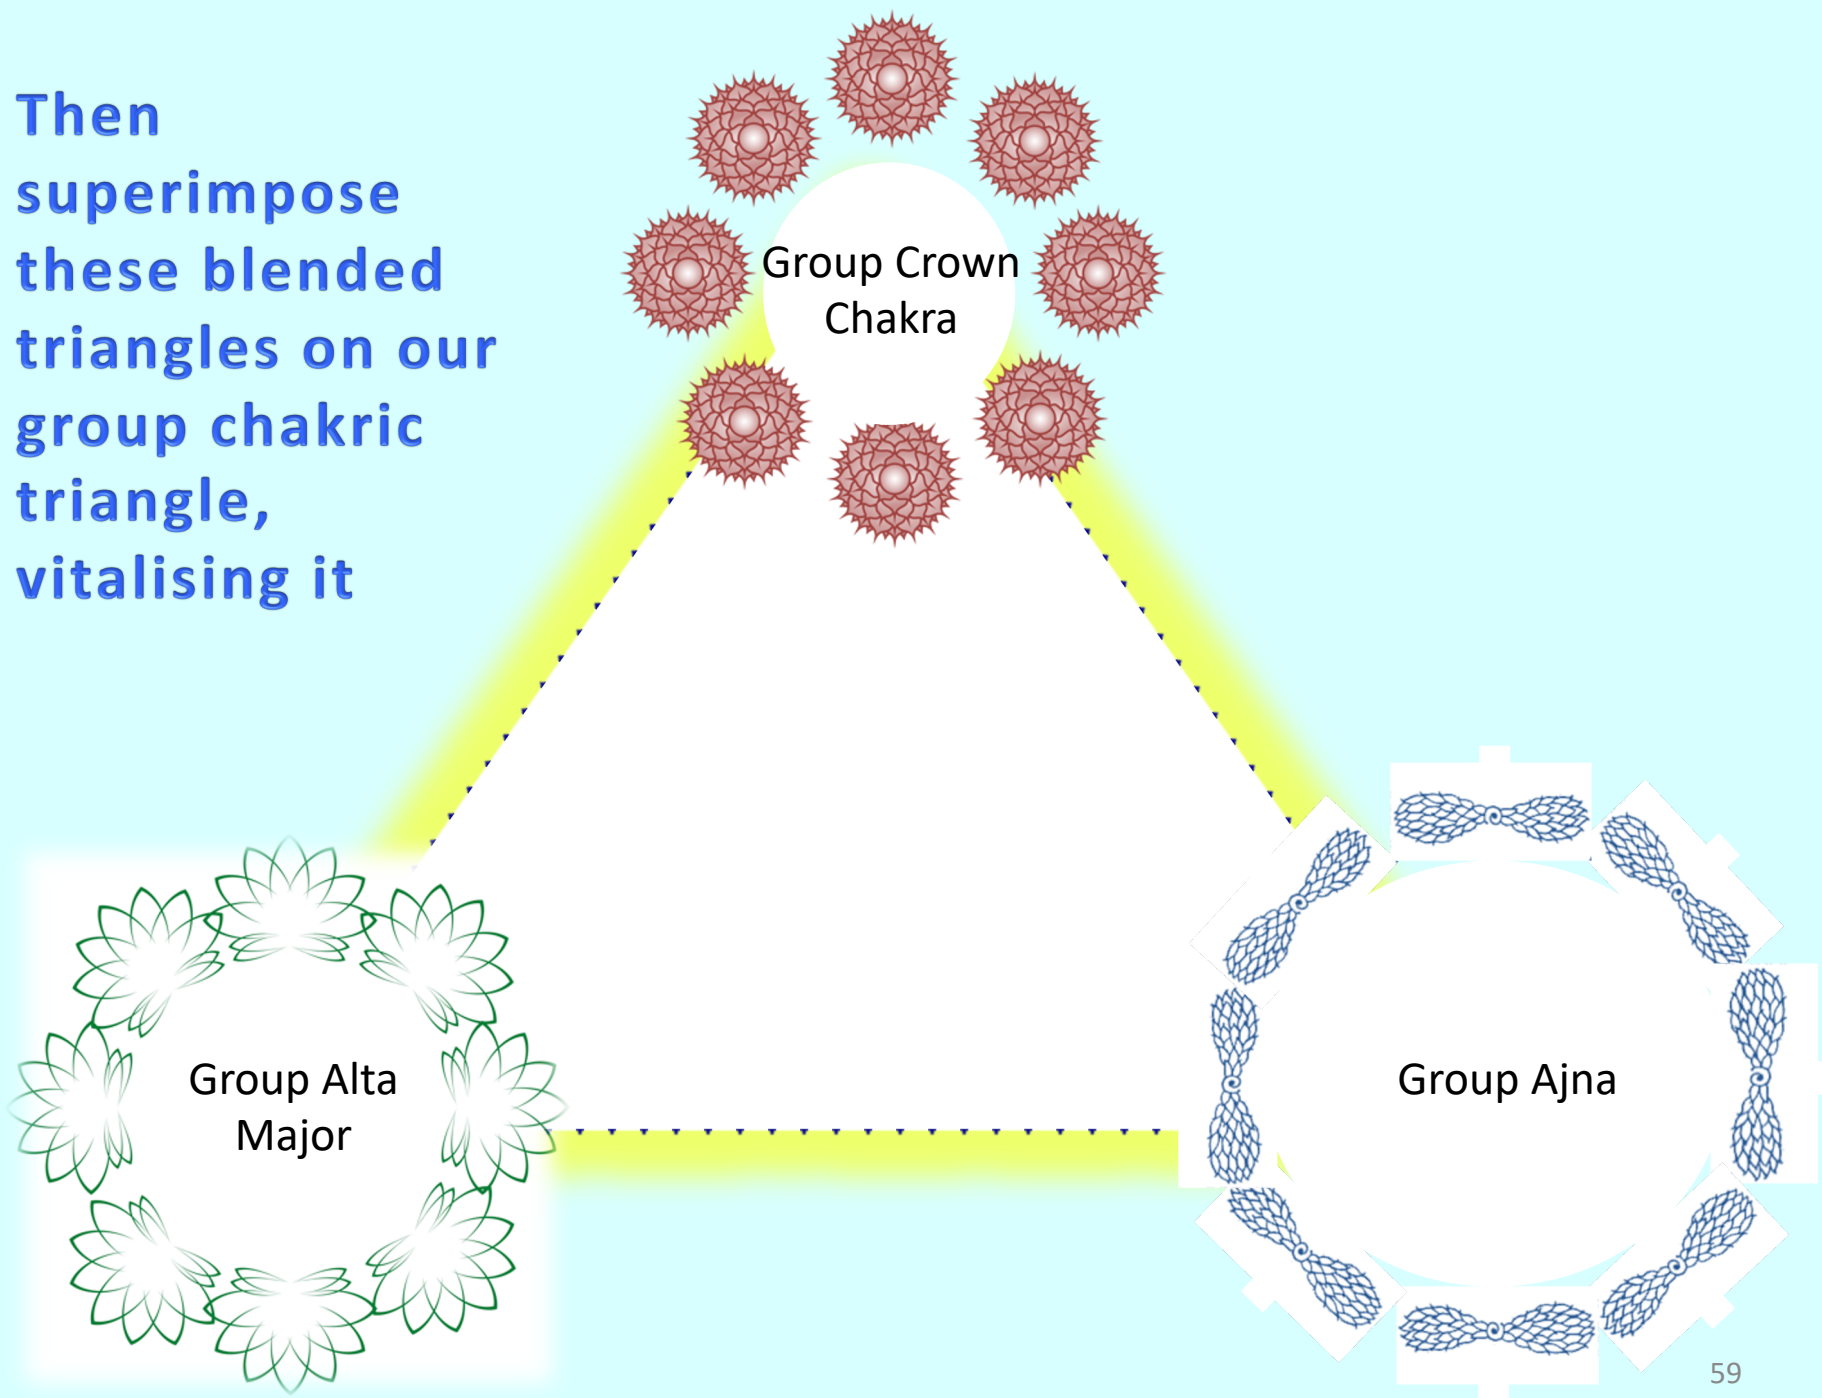

The Spirit of Peace:  
Love, establishing right human  
relations

**Superimpose  
the emanating  
triangle on the  
soul triangle**

**Then  
superimpose  
these blended  
triangles on our  
group chakric  
triangle,  
vitalising it**

Then directing the  
'dispelling radiance'  
via our group ajna-  
right eye- left eye  
triangle,  
place the blended  
triangle over the  
three planetary  
centres triangle:

Adaptation of Rule  
Two EH p581

Say the healers' mantra aloud in a low voice. Say it slowly and deliberately, believing in the results.

*May the love of the One Soul, focussed in this group, radiate upon you, our fellowmen and permeate every part of your body, healing, soothing, strengthening and dissipating all that hinders service and good health.*

*May the life and Love of Leo fill the hearts of all those who are touched by our garden.*

*May its magnetic light draw Man closer to Hierarchy, back to his original source.*

*Just like Christ does daily, “standing under the great pine in His garden at the sunset hour with hands uplifted in blessing over all those who truly and earnestly seek to aspire. IH&S44*

**Let's picture a great pine tree in our garden.  
let's gather around the Christ, Master D.K.  
and the healing ashram under this pine tree,  
saying the Great Invocation together.**

# The Great invocation

*From the point of Light within the Mind of God  
Let light stream forth into the minds of men.  
Let Light descend on Earth.*

*Sound a blue OM*

*From the point of Love within the Heart of God  
Let love stream forth into the hearts of men.  
May Christ return to Earth.*

*Sound a blue OM*

*From the centre where the Will of God is known  
Let purpose guide the little wills of men—  
The purpose which the Masters know and serve.  
Sound a blue OM*

*From the centre which we call the race of men  
Let the Plan of Love and Light work out.  
And may it seal the door where evil dwells.*

*Let Light and Love and Power restore the Plan on Earth*

*Sound a blue OM*

*Raise your clasped hands above the head, and say "So let it be and help us do our part".*

*At the last word—bring them down to the forehead and then to the heart EP II p734*

*May the blessing of the Christ and of the Hierarchy rest upon all true servers and may they stand tranquil in the midst of strife. EXH p488*

May the light of the garden of our souls be on the inner plane what the sun is to the gardens of the world.

A life-giving haven, a place of strength and a healing pool for many.
