Pre full moon Garden Visualisation  
Leo Blue Moon  
August 2021

*Let's continue to build our healing garden, as a group, at some point within the 12 hours prior to each full moon, meeting D.K. there, 'turning our garden into a shrine of consecration' and intending to offer our garden as a chalice for the Love of Hierarchy to be poured in selfless service to humanity.*

*Let's gather in our  
garden*

# Alignment with own soul

## *I. Start with the point of soul focus ....*

- Raise the consciousness into the head.... as high in the head as you can.*
- Carry consciousness upward through the astral body and the mind to the soul.*
- Visualise a lotus fully opened scintillating with light as a symbol of your soul body*

**Place yourself in the centre of your lotus**

**Realise that you, the personality and You, the soul are one.**

***II. From that point, definitely and consciously, assume the attitude of the Observer.***

- Observe the personality ‘below’***
- Visualise your etheric body. See energy flowing freely up and down the etheric spine.***
- Consciously throw soul energy down into the centre at the base of the spine. (You may use indigo blue light)***
- Then raise it slowly, via the five centres up the etheric spine then to ajna and crown up into the soul body.***

Say the soul mantra

***I am the Soul***

***I am Light divine***

***I am Will***

***I am Love***

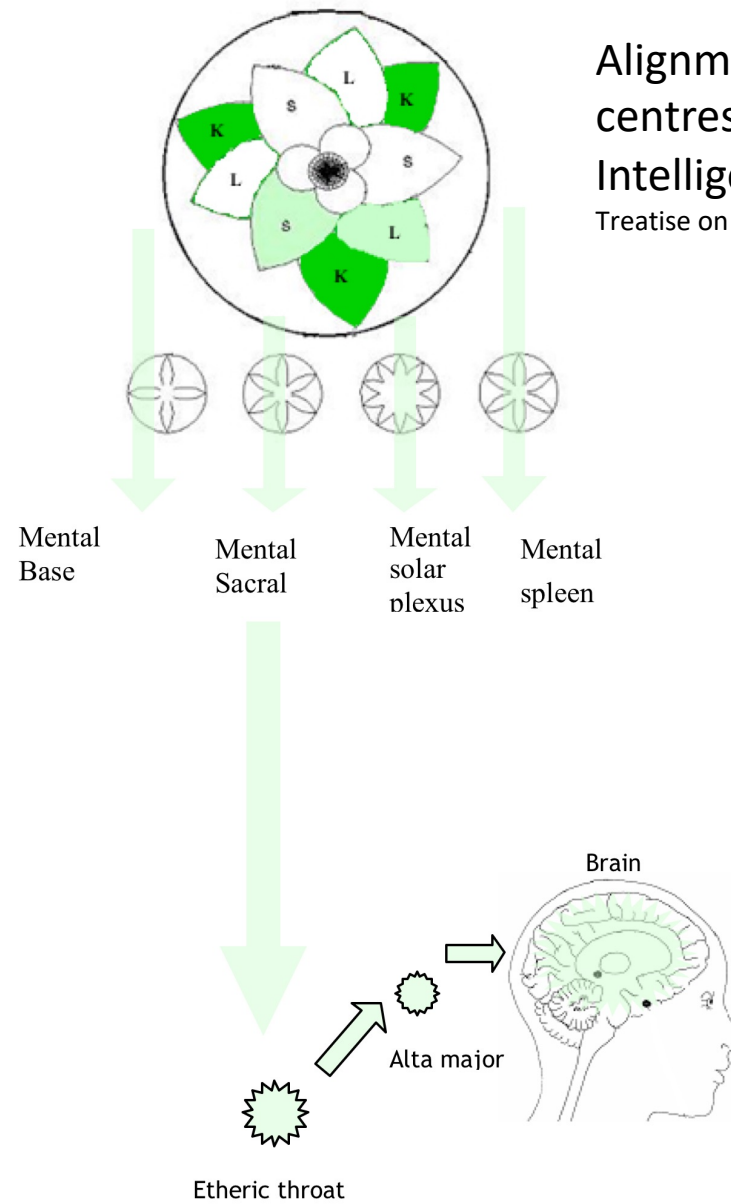

***I am fixed design***

**Sound an OM as if you were the Soul.**

# Arches of roses

*At the entrance to our garden, we stroll through arches of climbing roses, clusters of flowers in abundance overhead... choose the colour(s) you like.*

*Let the roses gently caress your face..*

*Breathe in the delicate aroma of the cascading colourful roses percolating through the air...*

*Small lovingly trimmed emerald green bushes line the stony pathway...*

# Beds of flowers

*Along an embankment at the end of the archway, there are rows and rows of flowers, flowers of different hues and harmonising tones of red, yellow, pink, white, cream, orange and magenta.*

*As we create these rows we include our own favorite flowers....*

*The blooms shed fresh petals on the path creating a soft carpet for us to walk on, releasing their individual fragrances as we step on them...*

The background image depicts a spiritual or communal gathering. In the center, a tall, ornate lighthouse with a glowing lantern at the top stands prominently. From the lighthouse, numerous bright, white beams of light radiate outwards in all directions, creating a starburst effect against a deep blue sky. Below the lighthouse, a vast crowd of people is visible, their forms rendered as translucent, glowing blue and white silhouettes. They are arranged in a dense, circular formation, suggesting a large assembly or a dance. The overall atmosphere is one of harmony, unity, and divine light. The text is overlaid on this scene in a warm, orange-brown color.

On the opposite side of embankment, we see right in the middle of our space of harmony, a lighthouse standing tall and strong shining beams of light in all directions as a symbol of our united group soul.

As we assemble there quietly, we hear a choir of birds fill the space with their clear melodious notes welcoming us to this unique space...

A chorus of angelic voices sing a soft tune accompanied by the sound of harps, devas gently strumming the cords...

A photograph of a forest with tall, slender trees. Sunlight is streaming through the canopy, creating a warm, golden glow and long shadows on the ground. The text is overlaid on the image in a white, italicized font.

*Sitting still around the lighthouse, we feel  
the gentle warmth of the rays of the sun...*

*In the background, the breeze softly  
swishing through the tall eucalyptus trees  
chants a melodic lullaby..*

*These majestic trees cast their protective  
shadows on the grass as sunlight peeps through  
this peaceful garden...*

**Around the lighthouse, we see a large quiet pool of crystal clear blue waters... Flowing from the pool we see rivulets as we hear the gentle trickle of water. We also see three wider streams of golden water flowing steadily.... Across them are curved wooden bridges.**

*In one area of the pool float lotuses of all colours in all stages of bloom, some are in full bloom revealing their gorgeous jewel while others are just budding and barely showing their true colour.... All reflecting their light in the healing waters*

Just beyond the pool, a hidden path leads to a cosy and serene corner. A few chairs or a bench and a small fountain containing supercharged vitalising water, perfumed by a single floating lotus, create the perfect spot for an informal sharing of one's difficulties or words of wisdom.. Inhale the perfume of the flowers imbuing and permeating the air. Everything in this garden quivers with livingness...

# Waterfall

*In the distance, we hear the soothing sound of water and we follow it...*

*We come to a tranquil pool where cascading water gently hugs rocks as it joyfully spills in a blue pool while bubbles of spray ricochet spiritedly in the air...*

Lush ferns alongside the rocks draping in the water enhance the serenity of the place... while the fiery brilliance of the orange and red leaves of surrounding trees brings warmth and invigorating energy to the area....

*in our mind's eye, we follow a pathway which leads us to flower beds. They are a riot of spring colour: reds.. Creams Yellows.. Pinks... of such vibrancy... winding their way like a gentle living stream among the trees... A row of violet flowers on either side of the meandering bed happily follows the path of the flowers as they release their subtle perfume ...*

*Butterflies flutter  
through the air with  
their iridescent  
wings attracted by  
the silent serenade  
of the blooms... they  
are like the flowers  
of the air...their  
delicate and fragile  
wings are like  
floating petals,  
catching the light  
and twinkling like  
diamonds in the air...*

***Buzzing bees surf the open spaces from flower to flower seeking pollen....***

***The pollen look like scintillating bright golden pixie dust...***

*Nearby, the soft and gentle babble of the sound of  
the fountains reaches our ears .....*

lush green grass lines a gentle  
stream like a soft velvety  
carpet..

The air is full of the sweet fragrance of the flowers in full bloom adorning the fringes of the streams in this tranquil garden quivering with life...

# Create your own corner

*This garden that we have just created is our garden, our group garden but let's take a moment to add a little corner which has our individual touch.*

*Add the colours, the unique features and flora of your own country that you'd like to blossom in this tranquil and serene space.....*

*Let's invite also the presence and cooperation of the healing devas/angels working under Christ. Visualise them in our garden enlivening it with their magnetism.*

The background image depicts a vast crowd of people, seen from behind, in a meditative posture. They are seated on the floor, filling a large hall or arena. Each person is surrounded by a glowing, ethereal energy field or aura, primarily in shades of blue and green. These fields overlap and interact, creating a sense of collective energy. In the foreground, the silhouettes of several individuals are more prominent, showing their hands resting on their knees. The overall atmosphere is one of spiritual unity and collective healing. The text is overlaid on the upper portion of the image in a warm, orange-brown color.

Sitting quiescent, our hearts beating as One, let's link up with each other as we say the healers' mantra aloud together.

*"With purity of motive, inspired by a loving heart, we offer ourselves for this work of healing.*

*This offer we make as a group and to the one (s) we seek to heal."*

A conceptual image featuring a lighthouse in the center, casting a powerful beam of light downwards. The background is a deep blue with concentric white circles emanating from the light source, suggesting waves or energy. In the foreground and middle ground, there are silhouettes of a large crowd of people, some appearing to be in a meditative or receptive state. The overall atmosphere is one of spiritual guidance and enlightenment.

We open our inner eyes...endeavouring to hold  
our mind unwaveringly "in the light,"

We know that Master D.K. too stands steady,  
pouring out upon us his love and strength and  
endeavouring to lift us up into a higher state of  
consciousness

We are now receptive to Master D.K.'s radiant  
energy.

The light of the light house begins to shine brighter and brighter, intensifying gradually.

Soon this light begins to take shape and a definite figure appears.

It's that of Master D.K.....

...

From the lighthouse, waves of golden light stream through our group, irradiating the garden around us, enlivening it even more..... imbuing our garden with the Cosmic Ray of Love and Wisdom, lovingly bestowed by the Sun, ruler of Leo and deeper still by Sirius, the Soul of our Sun.

Feel the energy of unconditional love fill the space and our heart...

# Sirius and Leo

*August, which is ruled by Leo, is the month of the Dog-star, or of Sirius, which thus brings Sirius into close relation to Leo.*

*Leo, in the cosmic sense (and apart from our solar system altogether) is ruled by Sirius.*

Esoteric Astrology p299

*The influences of Sirius... are focussed in Regulus, which is ...a star of the first magnitude and which is frequently called "the heart of the Lion."*

Esoteric Astrology p300

# Sirius is the soul of our Solar Logos

*“The Sirian Logos is to our Solar Logos what the human Ego (or soul) is to the human personality.*

# A very special bond between the Sirian Logos and our Planetary Logos

*There is a relationship of very ancient date between  
our Lord of the World, Sanat Kumara, and the Lord of  
Sirius, and  
this exists in spite of the fact that our planet is not a  
sacred planet.” Rays & Initiations p414*

# Sirius and our Planetary Logos

*Sirius is an important factor in the life of our planet.*

*Discipleship in the New Age Vol II p520*

*This great Sun...has a peculiar part to play where our Earth is concerned.*

*Rays & Initiations p413*

Sirius, so  
important a  
factor in the  
spiritual life of  
the planet,  
brings its energies  
to bear direct  
upon the

Hierarchy, *(the heart  
centre of our Planetary Logos)*

*Discipleship in the New Age Vol II*  
p520

# *Sirius, Solar Logos and Hierarchy*

*The energy evoked in response to this relationship (i.e. between Sirius and our Planetary Logos ) enters the Hierarchy via the Heart of the Sun, creating as a consequence a triangle of spiritual energy of enormous potency.*

*You have, therefore:*

*Sirius*

\*

*The Hierarchy*

*The Heart of the Sun*

# Work of Hierarchy controlled from Sirius

*The entire work of the Great White Lodge is controlled from Sirius;*

Rays & Initiations p415

A close-up, blue-toned image of a person's face, likely Jesus, with a bright light source on the forehead. The image has a grainy, ethereal quality. The text is overlaid on the lower half of the image.

The Christ, 'the Elder Brethren', the  
'Perfect One', Head of Hierarchy, the  
Great White Lodge modelled on the  
Sirian Lodge, is the embodiment of the  
Cosmic Ray of Love and Wisdom.

*He is the expression, par excellence, of a Sirian initiation, and  
it is to that high place He will eventually go—  
no matter what duties or hierarchical obligations may  
take Him elsewhere between that time and now.*

From suriyaphoto

*The bulk of  
liberated  
humanity  
goes this  
way* (i.e. the  
4<sup>th</sup> cosmic path  
to Sirius )

Initiation Human & Solar p188

# What is Sirian energy?

*The energies coming from the sun, Sirius, are related to the Love-Wisdom aspect or to the attractive power of the Solar Logos, to the soul of that Great Being.*

*This cosmic soul energy is related to the Hierarchy. Esoteric Astrology p416*

A heart-shaped ring of fire, with flames in shades of orange, yellow, and red, set against a dark, starry night sky. A bright blue star is visible in the center of the heart shape.

*It is this Sirian energy of  
cosmic Love which  
Hierarchy pours via the  
soul, the Sons of fire,  
into the heart centre of  
all aspirants, disciples  
and initiates.*

*The principle of buddhi, of  
cosmic love, in a mysterious  
way, is the principle found  
at the heart of every atom.*

*Rays & Initiations p414*

*Let's ponder on  
that jewelled  
statement...*

So in our creative imagination, let us see Master D.K. at the summit of our lighthouse, symbol of our unified soul group, showering our group heart with the magnetic and radiant cosmic Ray of Love from Sirius.... Thus, firing up the principle of Buddhi or pure Love within our hearts....

bathing our garden with the will-to-love ...

quicken the principle of buddhi, of cosmic love at the heart of every atom of every blade of grass, flower, bush, tree, or of every atom of water or air of our garden with the “*sunshine of the major Sun*” Sirius ...

The Sirian Law of Freedom is a  
*“unique and mysterious law (which) governs  
the Life and the Lives upon Sirius”*

Rays & Initiations p417

*This divine principle represents an  
aspect of the influence which Sirius  
exerts  
on our solar system and  
particularly on our planet.*

Rays & Initiations p416

Our Planetary Logos, known as “*the Great Sacrifice*” is under the control of the Sirian  
Law of Freedom.

*(Under the control of this law) He created  
our planetary life and all that is within  
and upon it, in order  
to learn to wield this law with full  
understanding, in full consciousness, and  
yet at the same time  
to bring release to the myriad forms of His  
creation.*

*Rays & Initiations p417 ( “to the prisoners of the planet”)*

# How do we define this unique divine Law?

*The principle of freedom is a leavening energy  
which can permeate substance in a unique  
manner;* Rays & Initiations p416

Because at the very heart of every chakra and every  
atom of matter lies the principle of cosmic love.  
When freed or released,

*This “pulling away from Form “ ....enable(s) the  
life or spirit aspect to free itself from the  
impact, the contact and the influence of  
substance* Rays & Initiations p416

# Sanat Kumara, Law of Freedom and divine indifference

*It is the principle of freedom which enables Sanat Kumara to dwell on the Earth and yet stand free from all contacts, except with Those Who have trodden the Path of Liberation and now stand free upon the cosmic physical plane;*

*Rays & Initiations p416*

*“Divine indifference” characterises Sanat Kumara, the Lord of the World.*

*Glamour A World Problem  
p244*

# Divine indifference for the disciple

*It's the Sirian magnetic quality of the heart which*

*allows the disciple to be divinely indifferent to the pulls and urges of the Form, to the personal feelings, cares, likes or dislikes and reactions of the little self and*

*permits all these solar plexus conditions to die of attrition being deprived of the "feeding-power" of the attention,*

*leaving the soul free  
to serve, untrammelled  
by personality reactions  
...*

*“the lessons of divine  
indifference, once  
mastered, release the  
soul to union with the  
One”*

*Discipleship in the New Age Vol I p225*

*then one can  
know the true  
meaning of  
unity,*

*then one is  
released from  
pain and*

*one is free to  
release others  
also.*

*Discipleship in the New Age  
Vol II p650*

Let's use our creative imagination to picture our whole garden releasing tiny luminous bubbles like a cloud of golden dust sparkling and shimmering in response to D.K.'s power of Love and the Sirian will-to-good ...

Let's take a moment to feel the rhythm of our group breath as we breathe in and out the glitter of the light of the will to love...

Let us feel the rhythm of our hearts pulsating as one in unison with The One.

As we continue to breathe in the airy jewels, our hearts ignited with the fiery and radiant Sirian will-to-good, let's offer the energies of Love and divine indifference gathered in the chalice of our garden in service to our fellow companions on earth...

A heart-shaped ring of fire and plasma, glowing with orange, yellow, and white light, set against a dark, starry space background. The ring is composed of turbulent, flowing material, resembling a solar flare or a nebula. In the center of the heart, there is a bright blue-white point of light, possibly representing a star or a source of energy. The overall image has a cosmic and spiritual feel.

*by visualising the flow of pure  
and fiery Love, the will-to-  
good and Divine Indifference  
emanating from the Great  
White Lodge on this  
Stupendous Sun, Sirius and  
to the Heart of our Sun... .*

Visualise a triangle  
of fiery Love from  
the Heart of the  
Sun

To the Christ, the Sirian  
initiate, the *Perfect One*,  
the Head of Hierarchy,

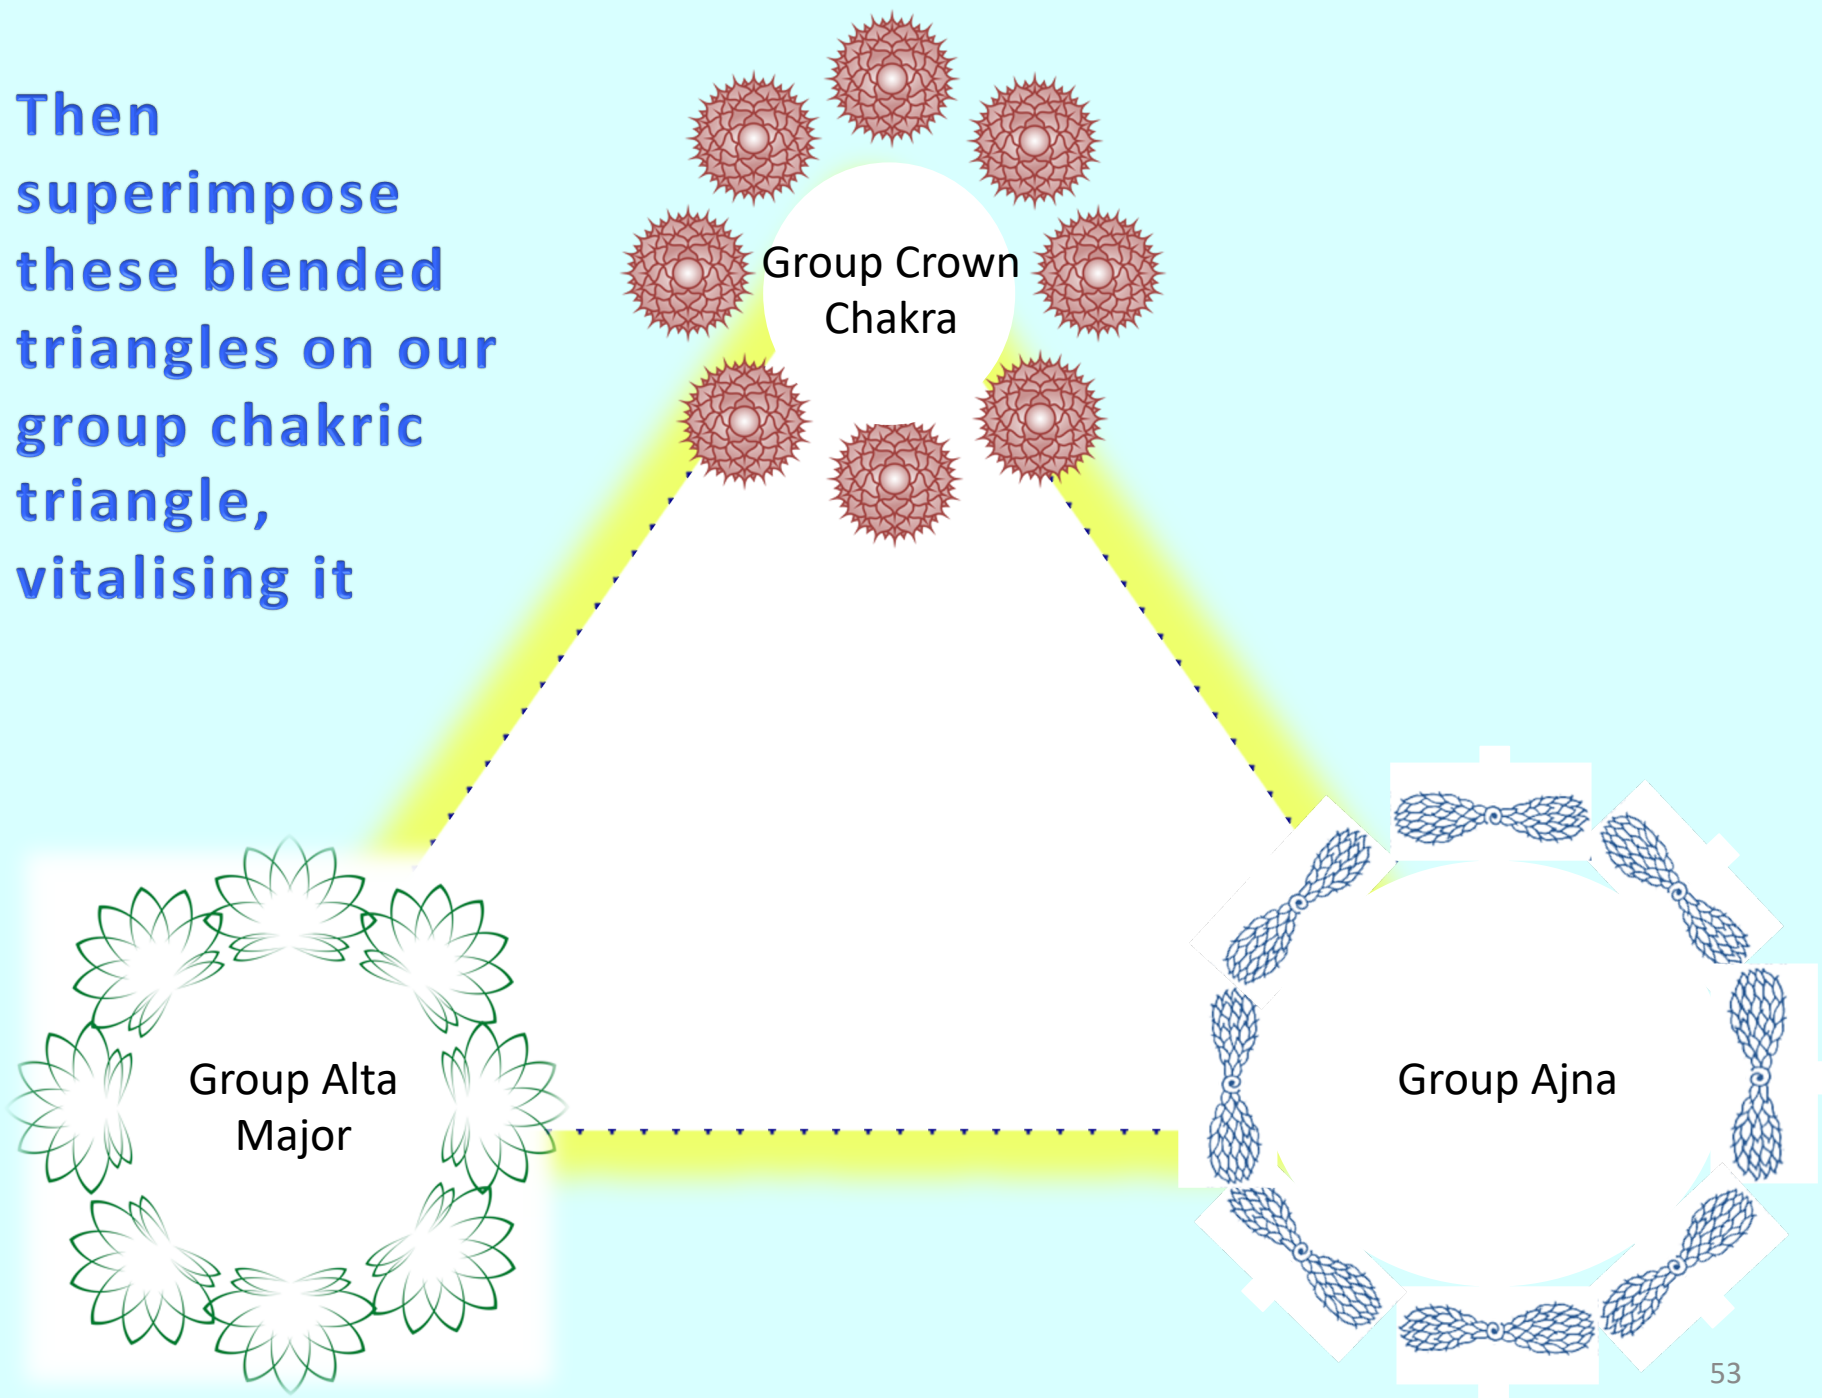

to the community of  
souls, our White  
Lodge, Hierarchy

**Superimpose  
the emanating  
triangle on the  
soul triangle**

**Then  
superimpose  
these blended  
triangles on our  
group chakric  
triangle,  
vitalising it**

Then directing the  
'dispelling radiance'  
via our group ajna-  
right eye- left eye  
triangle,  
place the blended  
triangle over the  
three planetary  
centres triangle:  
London- Geneva-NY.

Adaptation of Rule Two  
Esoteric Healing p581

**Say the healers' mantra aloud in a low voice. Say it slowly and deliberately, believing in the results.**

***May the love of the One Soul, focussed in this group, radiate upon you, our fellowmen and permeate every part of your body, healing, soothing, strengthening and dissipating all that hinders service and good health.***

***May the fiery 'sunshine of the major Sun' Sirius fill the hearts of all those who are touched by our garden.***

***May their souls be free from the prison of pain and attachments, be free to serve and release others too.***

The background of the entire image is a spiritual illustration. It depicts a man with long hair and a beard, wearing a white robe, standing in a garden. He is facing away from the viewer, with his arms outstretched in a gesture of blessing. The scene is set at sunset, with a warm, golden light filling the sky and the silhouettes of trees and foliage. A large, dark tree trunk is visible on the left side of the frame. The overall atmosphere is peaceful and sacred.

*Just like Christ does daily, "standing under the great pine in His garden  
at the sunset hour with hands uplifted in blessing over all those who  
truly and earnestly seek to aspire."  
Initiation Human & Solar p44*

**Let's picture a great pine tree in our garden.  
Let's gather around the Christ, Master D.K.  
and the healing ashram under this pine tree,  
saying the Great Invocation together.**

# The Great Invocation

*From the point of Light within the Mind of God  
Let light stream forth into the minds of men.  
Let Light descend on Earth.*

*Sound a blue OM*

*From the point of Love within the Heart of God  
Let love stream forth into the hearts of men.  
May Christ return to Earth.*

*Sound a blue OM*

*From the centre where the Will of God is known  
Let purpose guide the little wills of men—  
The purpose which the Masters know and serve.*

*Sound a blue OM*

*From the centre which we call the race of men  
Let the Plan of Love and Light work out.  
And may it seal the door where evil dwells.*

*Let Light and Love and Power restore the Plan on Earth*

*Sound a blue OM*

*Raise your clasped hands above the head, and say "So let it be and help us do our part".*

*At the last word—bring them down to the forehead and then to the heart*

*May the blessing of the Christ and of the Hierarchy rest upon all true servers and may they stand tranquil in the midst of strife.*

*Externalisation of the Hierarchy p488*

**May the light of the garden of our souls be on the inner plane what the Sun is to the gardens of the world.**

**A harmonious and free haven, a healing pool for many and an open place for all.**
