

*"Life is like Opera - Even the Universe
is a Great Opera
You and I both know this.
When Identity is truly understood,
all our personal issues
are seen in the Light of One Eye.
Then all is bliss."*

How beautiful is the vast horizon!

How powerful is the thought penetrating Space!

What new ways are disclosed by communion with Infinity!

Seek these treasures: in them is guarantee of your advancement.

Of what use is knowledge which brings one to a closed gate

marked by the sign "we know no more"?

Limitation of knowledge is a grave.

Therefore, fathom Infinity!
