A presentation of the newer type of meditations

2. The Teaching on the New Discipleship. This has been revolutionary where the older schools of occultism are concerned. The teaching includes:

c. A presentation of the newer type of meditations, with its emphasis upon visualisation and the use of the creative imagination... (R&I vol. 5)

AI, gateway to more maya, glamor and illusions or a potential gateway to a more unified humanity?

We are taking a somewhat radical departure from our usual presentations and will be explore the occult and esoteric implications of AI and Robotics.

New developments in Artificial Intelligence may be a part of uniting what the physicist Peter Russell called the global brain and esotericists the planetary etheric body, if used wisely and could potentially link what appear as isolated and random parts into one unity.

We will also be exploring AI and its potential dangers if not used with spiritual intent or wisely.

New and experimental methods must be employed.

Almost a century ago the Master DK via AAB made this important statement about future teachings that would take place after the turn of this last century.

"People are apt to forget that with each forward advance of humanity, the demands upon the Hierarchy change, new needs must be met, new techniques used, new and experimental methods must be employed. As I write for disciples and initiates, I call this to their attention" (R&I V p. 246)

Ray 4 and 7 will usher in the new art

The building of the Antahkarana will lead to-

Intensifying human creativity and thus bring in the new art as a basis for the new culture and as a conditioning factor in the new civilisation. One thing only will I add to the above and to the elucidation of the significance of Rule V. The clue to all this esoteric work demanded by Shamballa is to be found in the development of the Art of Visualisation...

... All creative art will be fostered by this training, and the new art of the future in all departments of creativity will be rapidly developed as the training proceeds. The unfoldment of the sense of vision and of the sense of synthesis, through visualisation, will lead to a sense of livingness in form.

(R&I 124 vol. 5)

No contact with higher principals

“This tabulation is but an extension of the major one which groups all Egos under the division of, color, sound and vibration” (TCF 1082)

Another power of the soul is psychometry.

- **“Another power of the soul is psychometry. Now what is psychometry? It might be defined as the ability to take a tangible something, belonging perhaps to an individual, and through the medium of that, to put oneself en rapport with that individual, or with a group of individuals. Psychometry is the law of association of ideas applied to the vibratory quality of force for the purpose of obtaining information. Again, the race will become clairaudient and clairvoyant, which means the capacity to hear and see as clearly and accurately upon the subtler planes as we do upon the physical. It will involve the ability to hear and see all that concerns the group—that is, to hear and see in the fourth and fifth dimensions...”**The fourth dimension is the ability to see through and around a thing. The fifth dimension is the ability, for instance, to take an eye, and by means of that eye to put oneself en rapport with all other eyes in the solar system. To see in the sixth dimension might be defined as the power to take a pebble off the beach, and by means of it to put oneself in accord with the entire planet. Now in the fifth dimension, where you took the eye, you were limited to a particular line of manifestation, but in the case of the sixth dimension, where you took a pebble, you were put in touch with the entire planet.” This is something very far ahead of us, but it is interesting to speak about, and holds a promise for each and all.

Consciousness of the Atom by AAB p. 138-39)

Henry Miller meets H.P.B

“I had just been reading Madame Blavatsky’s Isis Unveiled, but was not given to mystical experience.

As I looked at a photograph of [Madame Blavatsky’s] face....I was hypnotized by her eyes and I had a complete vision of her as if she were in the room.

Now I don’t know if that had anything to do with what happened next, but I had a flash, I came to the realization that I was responsible for my whole life, whatever had happened. I used to blame my family, society, my wife . . . and that day I saw so clearly that I had nobody to blame but myself. I put everything on my own shoulders and I felt so relieved: Now I’m free, no one else is responsible. And that was a kind of awakening...” Henry Miller

Augmented and Virtual Reality

Virtual Reality

The computer-generated simulation of a **three-dimensional** image or environment that can be **interacted** with in a seemingly real or physical way by a person using special electronic equipment, such as a helmet with a screen inside or gloves fitted with sensors.

The Meta Quest 2, formerly known as the Oculus Quest 2, is a virtual reality (VR) headset that allows users to interact with the virtual world.

The Way of Fire

"I seek the Way; I yearn to know. Visions I see, and fleeting deep impressions. Behind the Portal, on the other side, lies that which I call home, for the circle hath been well-nigh trod, and the end approacheth the beginning.

I seek the Way. All ways my feet have trod. The Way of Fire calls me with fierce appeal. Naught in me seeks the way of peace; naught in me yearns for earth.

Let the fire rage, the flames devour; let all the dross be burnt;

and let me enter through that Gate, and tread the Way of Fire." (LOS, 209)
