The Rays and Planes

**When any of the 7 rays pass through a plane light
flashes forth and revelation occurs.**

We will be sharing a number of quotes by DK that indicate that it may not simply be new technical information or teachings that will emerge during this new 2025 Shamballa cycle we are now entering.

As an advanced esoteric group we must learn new ways of presenting occult material through both art, technology and a new super-human physics that is slowly emerging through contemporary science. The 7th ray must be used to ground out these powerful subjective and spiritual forces we are now being exposed to individually and through the many groups with which we work.

Initiation and the the appearance of the New Art

“The first major proof that humanity (through the medium of the majority of its advanced people) has undergone the first initiation will be the appearance of a cycle of entirely new creative art. This creative urge will take forms which will express the new incoming energies. Just as the period governed by the sixth ray has culminated in a world wherein men work in great workshops and factories to produce the plethora of objects men deem needful for their happiness and well-being, so in the seventh ray cycle we shall see men engaged on an even larger scale in the field of creative art. Devotion to objects will eventually be superseded by the creation of that which will more truly express the Real; ugliness and materiality will give place to beauty and reality. On a large scale, humanity has already been "led from darkness to light" and the light of knowledge fills the land. In the period which lies ahead and under the influencing radiation of the seventh ray, humanity will be "led from the unreal to the Real." This the first initiation makes possible for the individual and will make possible for the mass of men.”

THE TURNING OF THE WHEEL

(The greater and the lesser)

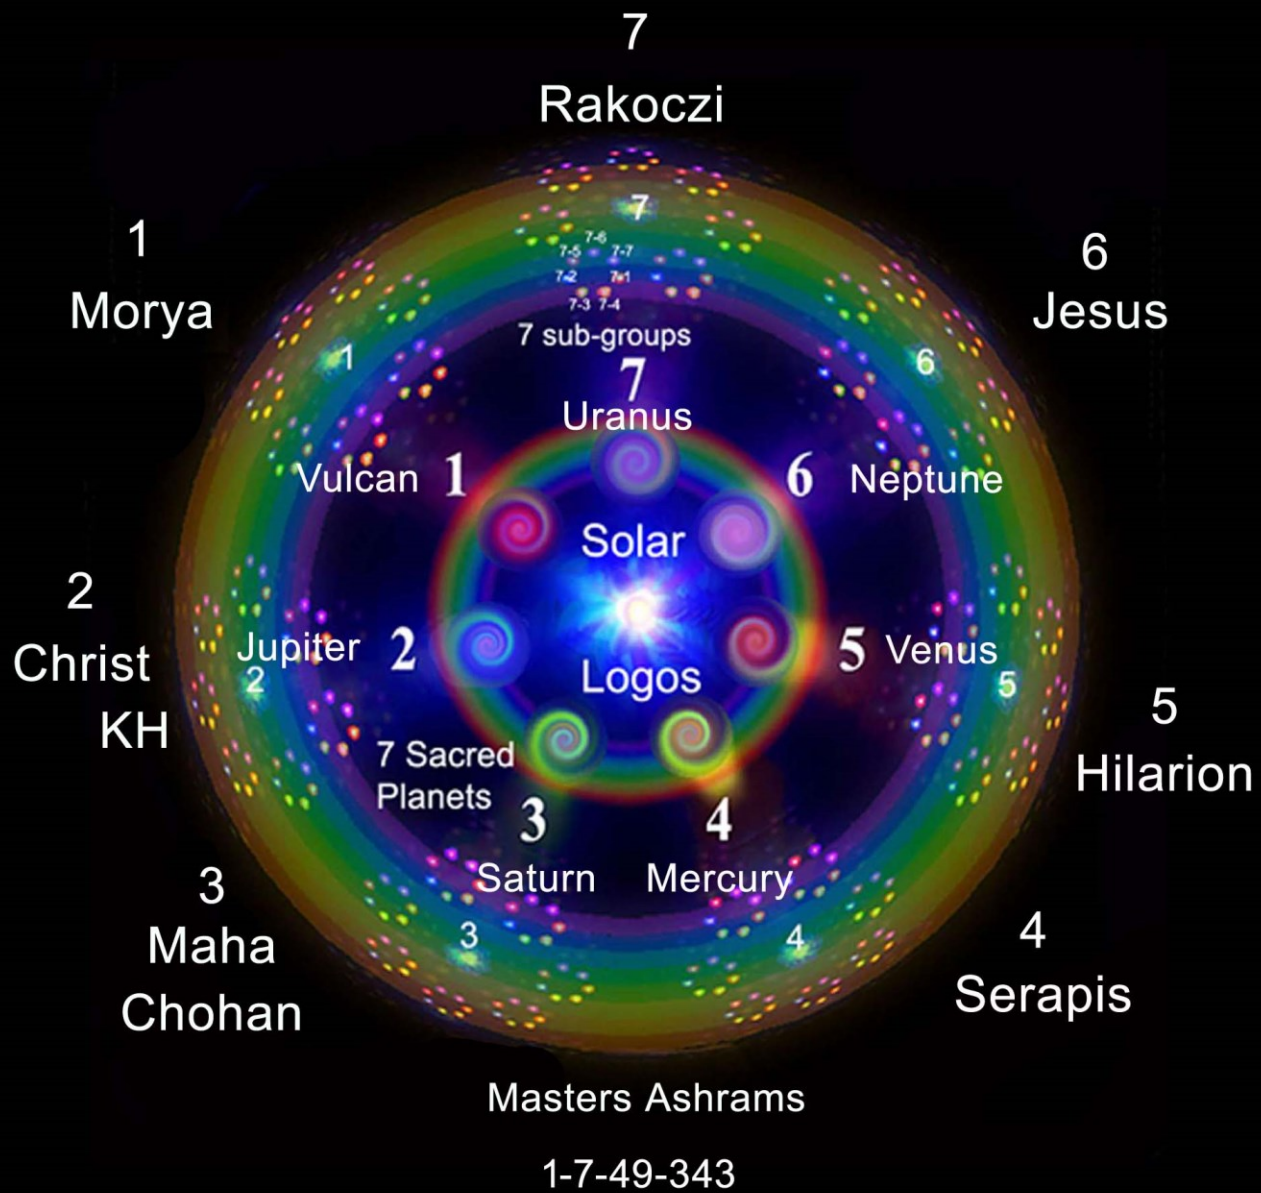

“The one wheel turns. One turn alone is made, and every sphere, and suns of all degrees, follow its course. The night of time is lost in it, and kalpas measure less than seconds in the little day of man.

Ten million million kalpas pass, and twice ten million million Brahmic cycles and yet one hour of cosmic time is not completed.

Within the wheel, forming that wheel, are all the lesser wheels from the first to the tenth dimension. These in their cyclic turn hold in their spheres of force other and lesser wheels. Wheels within wheels, spheres within spheres” (TCF 1085)

The image features a central, bright white and yellow light source that radiates outwards. This light is contained within a complex, multi-layered structure of overlapping, concentric rings and spheres. The colors transition from yellow and green in the center to red and purple towards the edges. The overall appearance is that of a highly energetic, multi-dimensional field or a complex physical structure. The background is dark, with some faint, swirling patterns in shades of red and purple.

The Conch Shell

The conch shell has survived as the original horn trumpet since time immemorial. It is one of the main emblems of Vishnu, and his conch bears the name of Panchajanya, meaning 'having control over the five classes of beings.' It is an emblem of power, authority and sovereignty. Today, in its greatly tamed version, the conch is used in Tibetan Buddhism to call together religious assemblies. During the actual practise of rituals, it is used both as a musical instrument and as a container for holy water.

In Vajrayana Buddhism the conch is a symbol which fearlessly proclaimed the truth of the dharma, it stands for the fame of the Buddha's teaching, which spreads in all directions like the sound of the conch.

The "wheel turning upon itself."

“The entire question of the revolving wheel with its dual action and its dual effect upon consciousness (and therefore the whole problem of the three decans and their rulers in each sign of the zodiac) must remain a difficult and abstruse problem until such time as astrologers have developed a four-dimensional consciousness and know the true meaning of the Biblical phrase: the "wheel turning upon itself." In reality, the wheel does not turn like a wheel in a car either forward or the reverse. It turns every way and both ways simultaneously. This fact is, as yet, an impossible one for the human consciousness to grasp. The complexity involved in the progress through the decans—conditioning also the rulers—is to be found to be based upon this multiple action of the wheel. The wheel, therefore, moves not only clockwise, but both ways at once and also at right angles to itself.”

(EA p. 370-71)

The nature of true religion, the purpose of science and the goal of all education

"The Mysteries will restore colour and music as they essentially are to the world and do it in such a manner that the creative art of today (1940) will be to this new creative art what a child's building of wooden blocks is to a great cathedral such as Durham or Milan. The spiritual Mysteries, when restored, will make real—in a sense incomprehensible to you at present— the nature of true religion, the purpose of science and the goal of all education. These are not what you think today." (R&I vol. 5 333)

2. How are Occult Wheels and their dual Vortexes created ?

Vortexes' and their different size and potencies are the result of two opposite forces coming together into the same vicinity. These two forces try to cancel each other out much like a weather system of hot and dry and cold and wet when meeting. They turn upon themselves.

The use of ones own colour

“The use of coloured lights. These lights are played on the body of the disciple and effect a shaking-out process and a simultaneous stimulation of the atoms. This cannot be done till further information is given out on the Rays; when a man's ray is known, stimulation will come from the use of his own colour, a building-in will be brought about by the use of his complementary colour, and disintegration of unwanted matter will be brought about by the use of an antagonistic colour. This knowledge will later on be communicated to the great bodies that hold custody of the Mysteries, the Church and the Masons.” (LOM 336)
