**“The great Dragon of Wisdom is born of Fire and Water
and into Fire and Water will all be reabsorbed with him”**

(Secret Doctrine Vol. 1 p-511)

The fire of mind today has to be reckoned with the water of desire.

- “This second initiation—as now undergone—is to some extent one of the most difficult. It involves purification, but it is purification by fire, symbolically understood. The occult "application of fire to water" produces certain most serious and devastating results. The water, under the action of fire, "is resolved into steam and the initiate is immersed in the fogs and miasmas, the glamours and the mists" thus caused. Out of this fog and out of the glamours, the initiate must emerge; out of the present fog of human affairs humanity will also emerge eventually. The success of the individual initiate is the guarantee of the racial destiny. The complications, produced by water in conjunction with fire in these Aryan days, are far greater than those produced entirely by water in Atlantean times; this age is kama-manasic and not simply kamic or strictly astral. Remember therefore as you read these words that I am speaking symbolically. The fire of mind today has to be reckoned with in conjunction with the water of desire, and it is owing to this that much of humanity's problem develops. It is because of this that the second initiation has become one of the most difficult which the modern disciple has to take...”
- “Before him lies the third Initiation of the Transfiguration. Facing him is a great transition from an emotional aspirational focus to an intelligent, thinking focus. He has, theoretically at least, cast off the control of the astral body and nature; much still remains to be done; old desires, ancient astral reactions and habitual emotions are still powerful, but he has developed a new attitude to them and a new perspective to the astral body. Water, fire, steam, glamour, delusion, misinterpretation and emotional continuity still mean something specific and undesirable to him. He is now negative to their appeal and positive to the higher demanding focus. That which he now loves and longs for, desires and plans for, lies in another and higher dimension. He has, through his willingness to pass through the second initiation, struck the first blow at his innate selfishness and has demonstrated his determination to think in wider and more inclusive terms. The group begins to mean more to him than himself.” (RI vol. 4 676-78)

The Geometry of 3-d charts

Let your Star Shine Forth.

“Astrologers will eventually find it necessary to cast three horoscopes or three charts:—one purely physical dealing with the body of nature; one primarily emotional, and dealing with the quality of the personality and with its sensitivity, or state of awareness; the third will be the chart of the mental impulses and conditions. It will be found that these three charts will take certain geometrical lines, the lines of energies will form patterns. These three charts, superimposed one upon the other, will give the personality diagram, the individual life pattern. Amazing symbolic charts and lineal forms will be found to emerge when this is done, and the "geometry of the individual" will grow out of this, for it will be found that each line will function in relation to another line, and the trends of the life energies will become apparent. Eventually, even in this department of knowledge, "the star will shine forth." This will constitute a new branch of psychology and its true exponent for our age will duly be found. I but indicate the lines of the future astrology in order to safeguard the present.” (EA 440)

Prior to incarnation he will sound his Egoic note

“With evolved egos such as may be contacted among the thinkers of the race and among the prominent workers in all departments of world work everywhere, the personality ray may vary from life to life, each life being based on a different note and demonstrating a different colour. In this way the causal body is more rapidly equipped. When the reincarnating unit has reached a point where he can consciously choose his mode of expression, he will first review his past lives, and from the knowledge gained thereby, he will guide his choice for the next. Prior to incarnation he will sound his egoic note and will note the lack of fullness or the discord it may contain; he will then decide upon which note he will base his coming personality vibration.

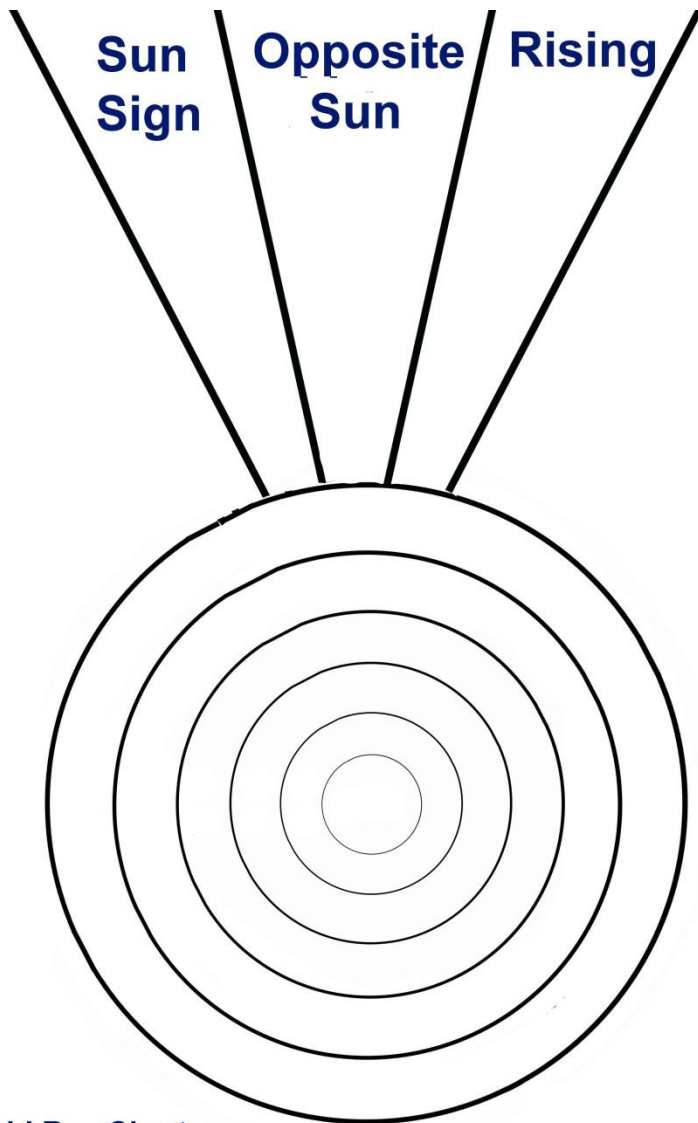

The whole life, therefore, may be given over to the sounding of a particular note and to the stabilising of one particular vibration. This note must be sounded and this vibration stabilised in diversity of circumstances. Hence the necessity in the life of the aspirant or disciple for frequent change, and the explanation of the obvious condition of variety and apparent chaos in which these lives are spent.” (LOM 20-21)

Making that sound he flashes into color

"Every individual vibrates to some particular measure. Those who know and who work clairvoyantly and clairaudiently find that all matter sounds, all matter pulsates, and all matter has its own color. Each human being can therefore be made to give forth some specific sound; in making that sound he flashes into color, and the combination of the two is indicative of some measure which is peculiarly his own.

"Every unit of the human race is on some one of the seven rays; therefore some one color predominates, and some one tone sounds forth; infinite are the gradations and many the shades of color and tone." (EP1:126-127)

"The value of what I impart now consists in this: — that in the study of colour (which is one form of the study of vibration) comes the ability to understand personal vibration, to attune that vibration to the egoic one, and to synchronise it later with that of the Master." (LOM 215)

As for my astrology and current best guess on my rayology:

- Asc is 22 Gemini, Sun is 11 Leo, Moon is 15 Libra (if you use that)
- Soul R2, Pers R6
- Men R5, Ast R2, Phys R7
- Monad might be R3 (MDR thinks R3; I definitely have some strong R1 somewhere, but it could be a legacy, or just my Leo Sun)
