**SECTION ONE-**  
**INTRODUCTORY REMARKS**  
 Pages 37-41

I- Fire in the Macrocosm  
 II- Fire in the Microcosm  
 III- Fire in manifestation  
 The Internal Fires- Fire by Friction

**I- Fire in the Macrocosm**

**Fire by friction** or internal vitalising fire.  
 Animate and vitalise the objective solar system  
 Sumtotal of logoi kundalini in full systemic activity

in Ray terms:

Animating fire of solar system  
 Fires of **primordial ray** of active intelligent matter  
 Energy of Brahma  
 Third aspect of Logos

**Ray of intelligent activity**-previous mahakalpa  
 Basic vibration of this solar system; animates+vitalises  
 Cause of rotary motion-spheroidal form  
 Law of Economy

Mode of manifestation:  
 Objective or tangible universe

**Solar Fire** or cosmic mental fire  
 Portion of cosmic mental plane - animation of mental body of the Logos  
 Sumtotal of sparks of mind  
 Animating principle of evolving units of human race in three worlds

In Ray terms:

Fires of divine Ray of Love-Wisdom  
**Ray of intelligent love**  
 Energy of Vishnu  
 Second aspect of Logos

**Ray of intelligent love**  
 Not vibrating adequately nor peak of activity yet  
 Cause of cyclic spiral movement  
 Law of Attraction and Repulsion

Mode of manifestation:  
 Subjective worlds or form

**Electric Fire** or logoi Flame Divine  
 Distinguishing mark of our Logos  
 His dominant characteristic  
 Sign of His place in cosmic evolution

In Ray terms:

Fires of cosmic mental plane  
 Fires of cosmic ray of will  
**Rays of intelligent will**  
 First aspect of Logos, Mahadeva aspect

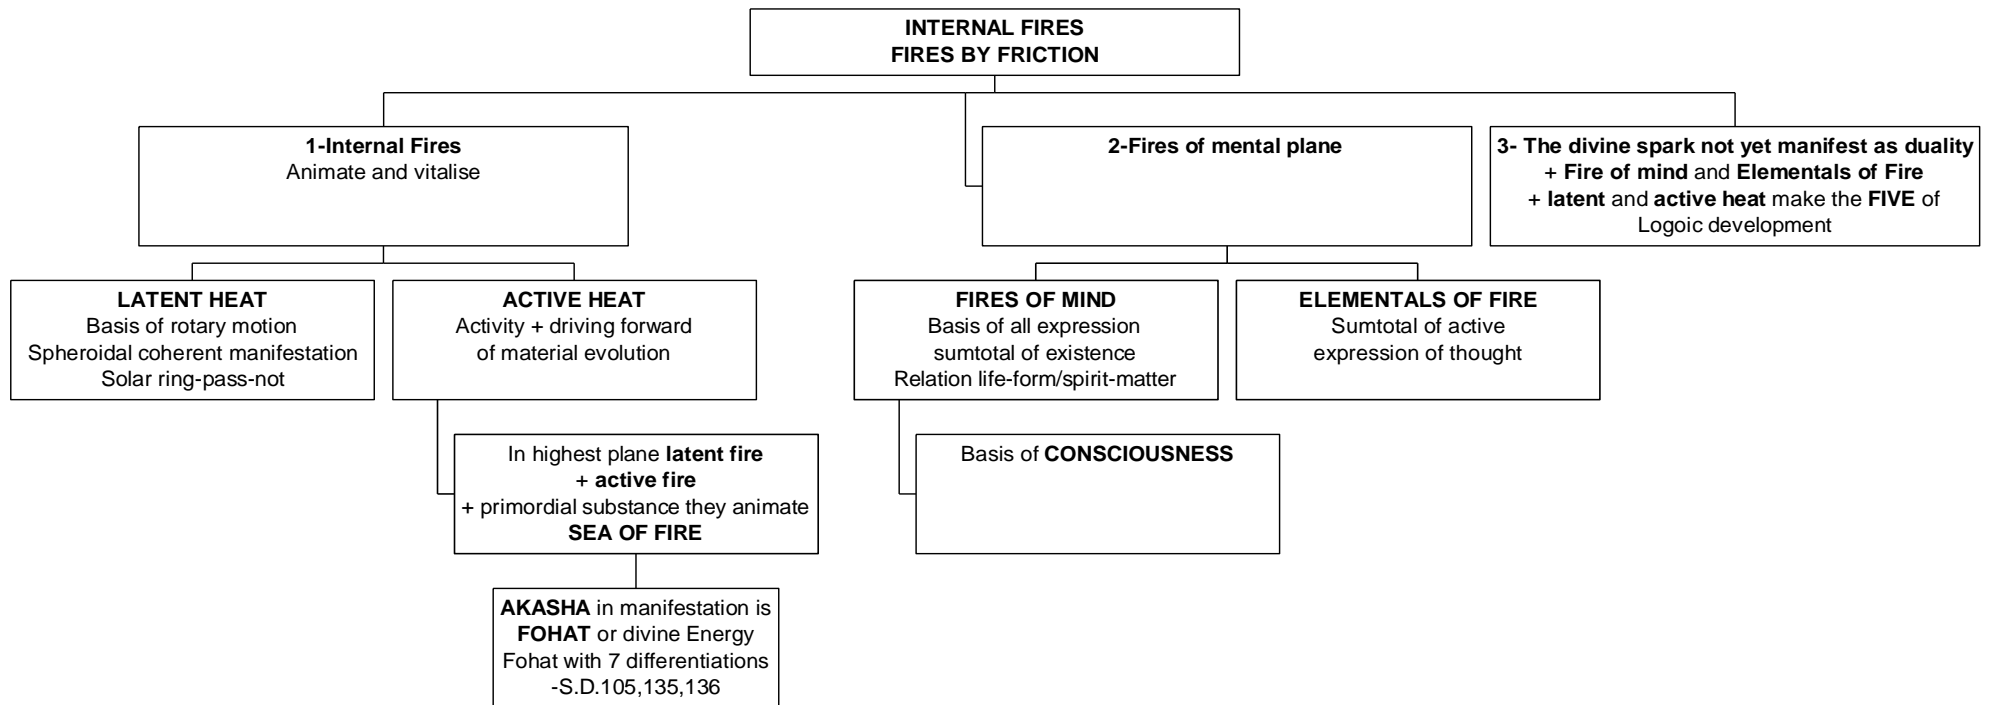

**Ray of intelligent will**  
 Development retarded due to purpose and choice of solar Logos  
 Cause of forward progression movement/ring-pass-not  
 Law of Synthesis

Mode of manifestation:  
 Spiritual aspect at the heart of all

INTRODUCTORY REMARKS

III-FIRE IN MANIFESTATION  
Pages 50-52

**B-FIRE IN MANIFESTATION**

TCF concerns :-subjective essence of solar system  
-entities who indwell form, as animating factors through primarily etheric matter  
evolving the fire of mind ...to return to central cosmic centre(page 50)

**FIRE BY FRICTION (S.D.)**

An *effect* NOT a cause produced by  
two fires of spirit and or mind-  
Electric and solar Fire-

(page 51)Internal fires of sun/planets/man  
*Man is Flame Divine and Fire of Mind*  
Contact through substance or form  
evolution ends+fire of matter not cognisable

(Brief review) Firstly...  
Internal fire-latent and active-shows as  
synthesis of fires of system and demonstrates  
e.g.solar radiation and inner planetary combustion

Electricity -expression of *active* system and planet internal fires  
Inner combustion- expression of latent internal fires.  
To be found in interior of each globe +  
Basis of all objective physical life

Secondly...

Internal fires are basis of life in lower 3 kingdoms of nature  
and in 4th kingdom in connection with two lower vehicles.

Fire of Mind,when blended with internal fires is  
the basis of life in 4th kingdom- united they control  
lower threefold man/personality  
Control lasts up to the time of First Initiation

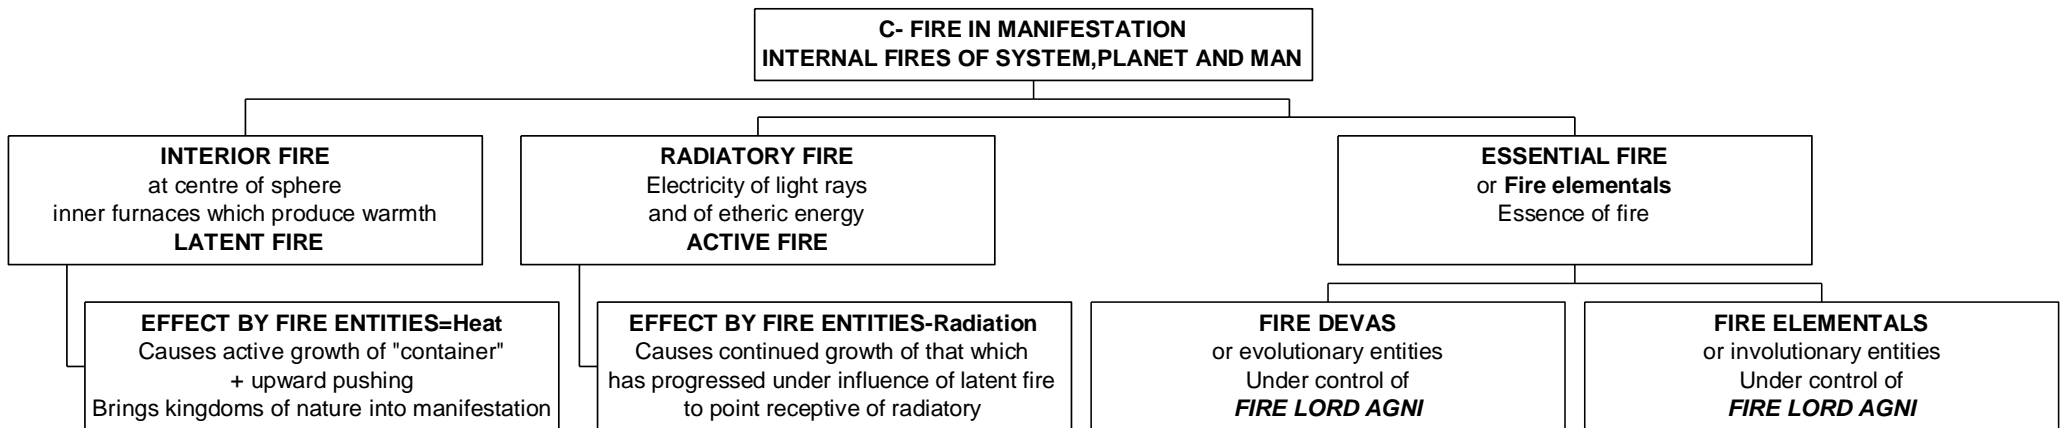

Finally...Fire of spirit, when blended with the two other  
fires, forms a basis of spiritual life or existence.

In 5th or spiritual kingdom,three fires blaze forth simultaneously,  
producing perfected consciousness

this blaze results in final purification of matter and its  
consequent adequacy  
Brings about eventually the destruction of form+  
dissolution+termination of existence on lower planes
